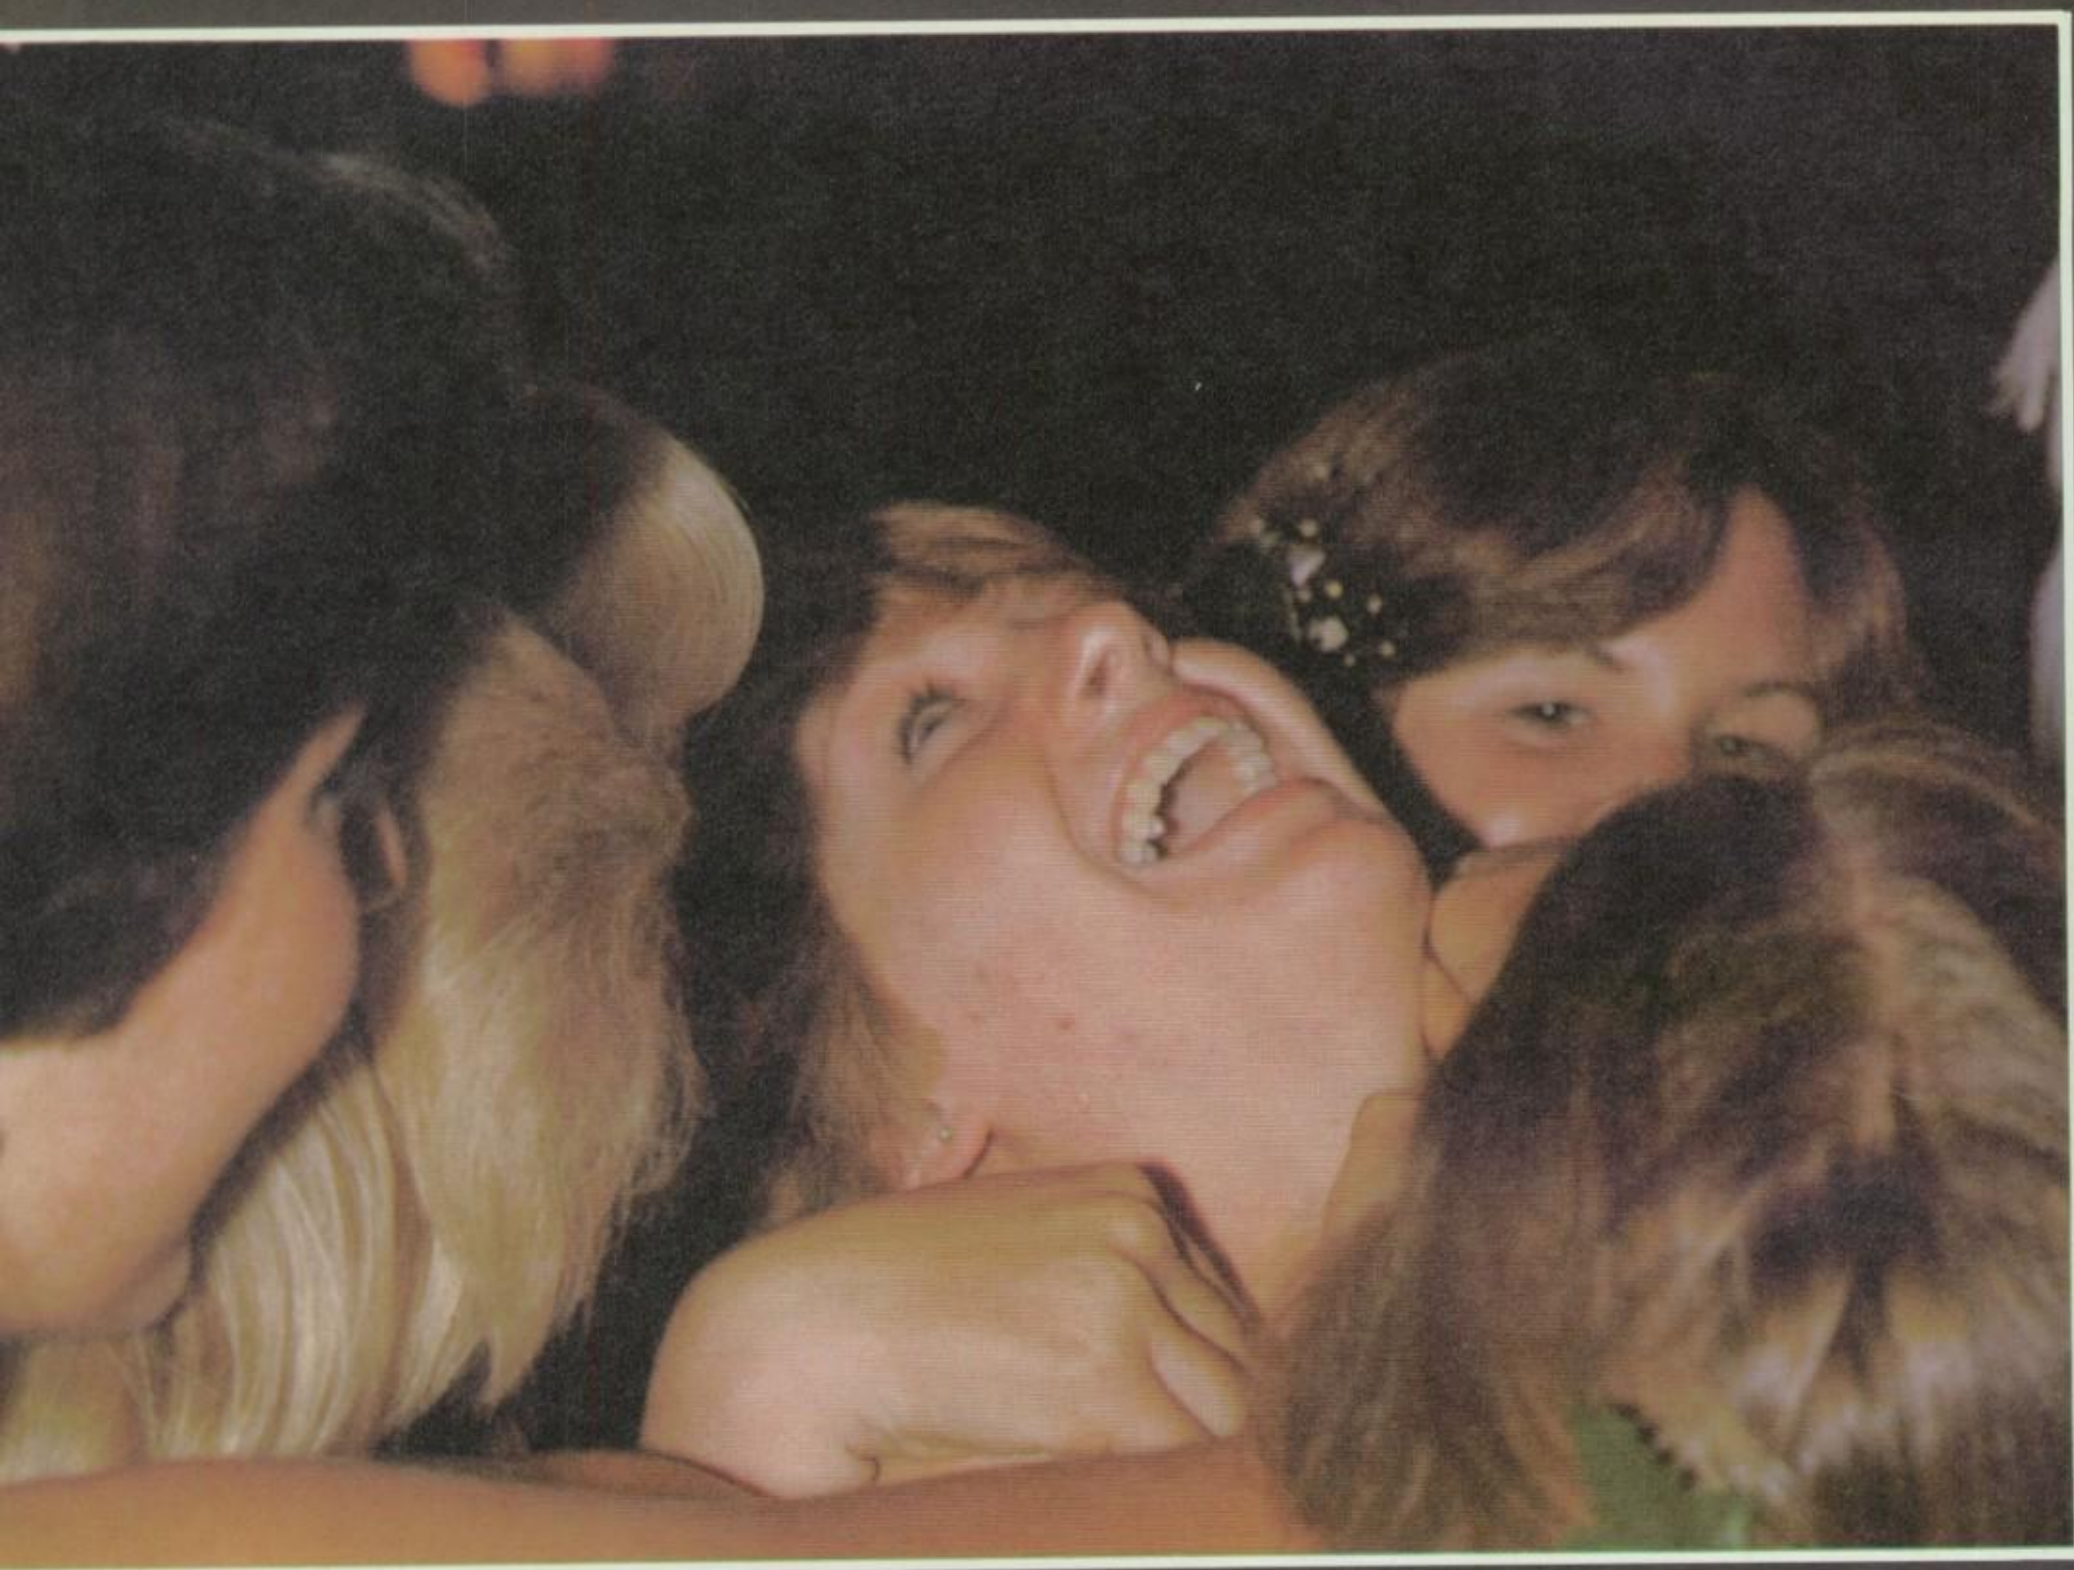
Forever we are revolving into new experiences,

and crisscrossing our thoughts with old memories,



but we grow and change into people,
we thought we'd never be.

Everything is under different lights

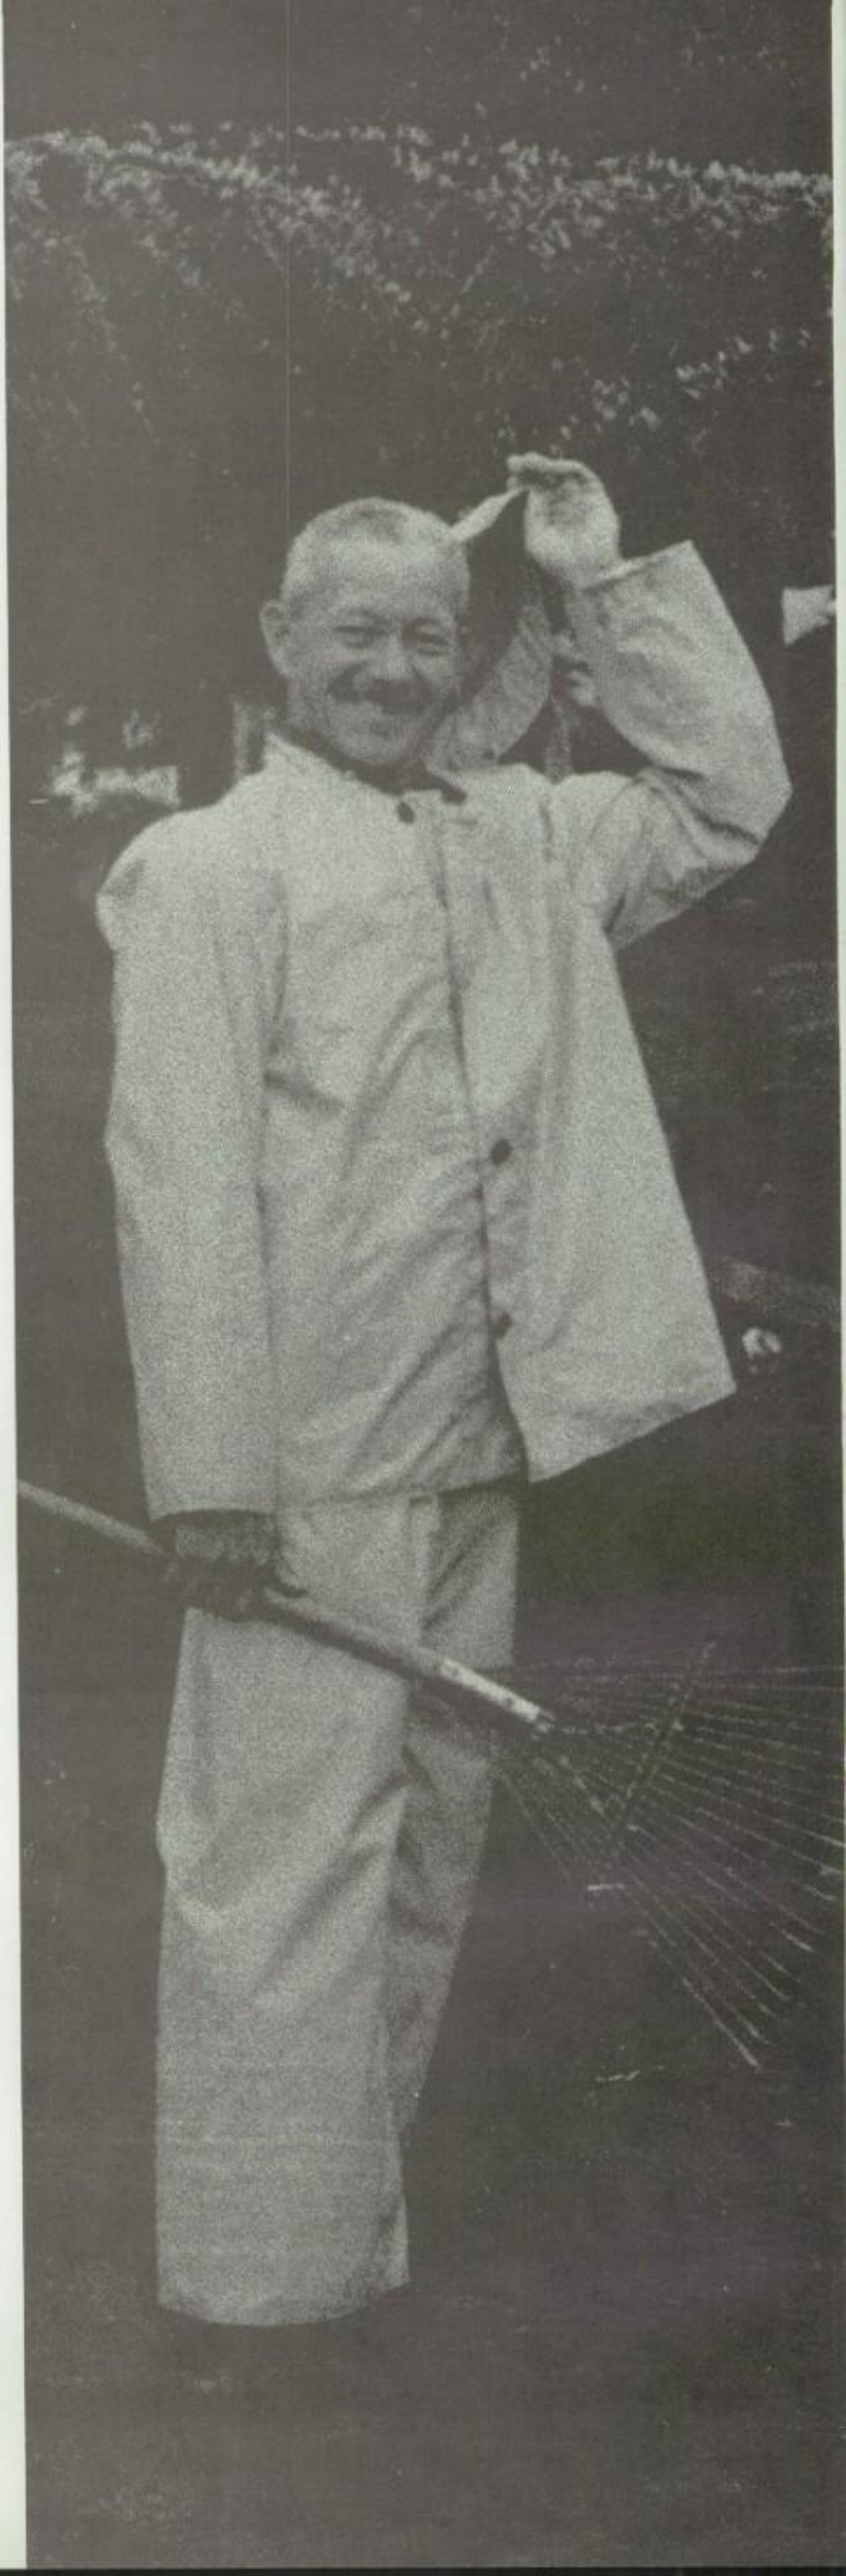
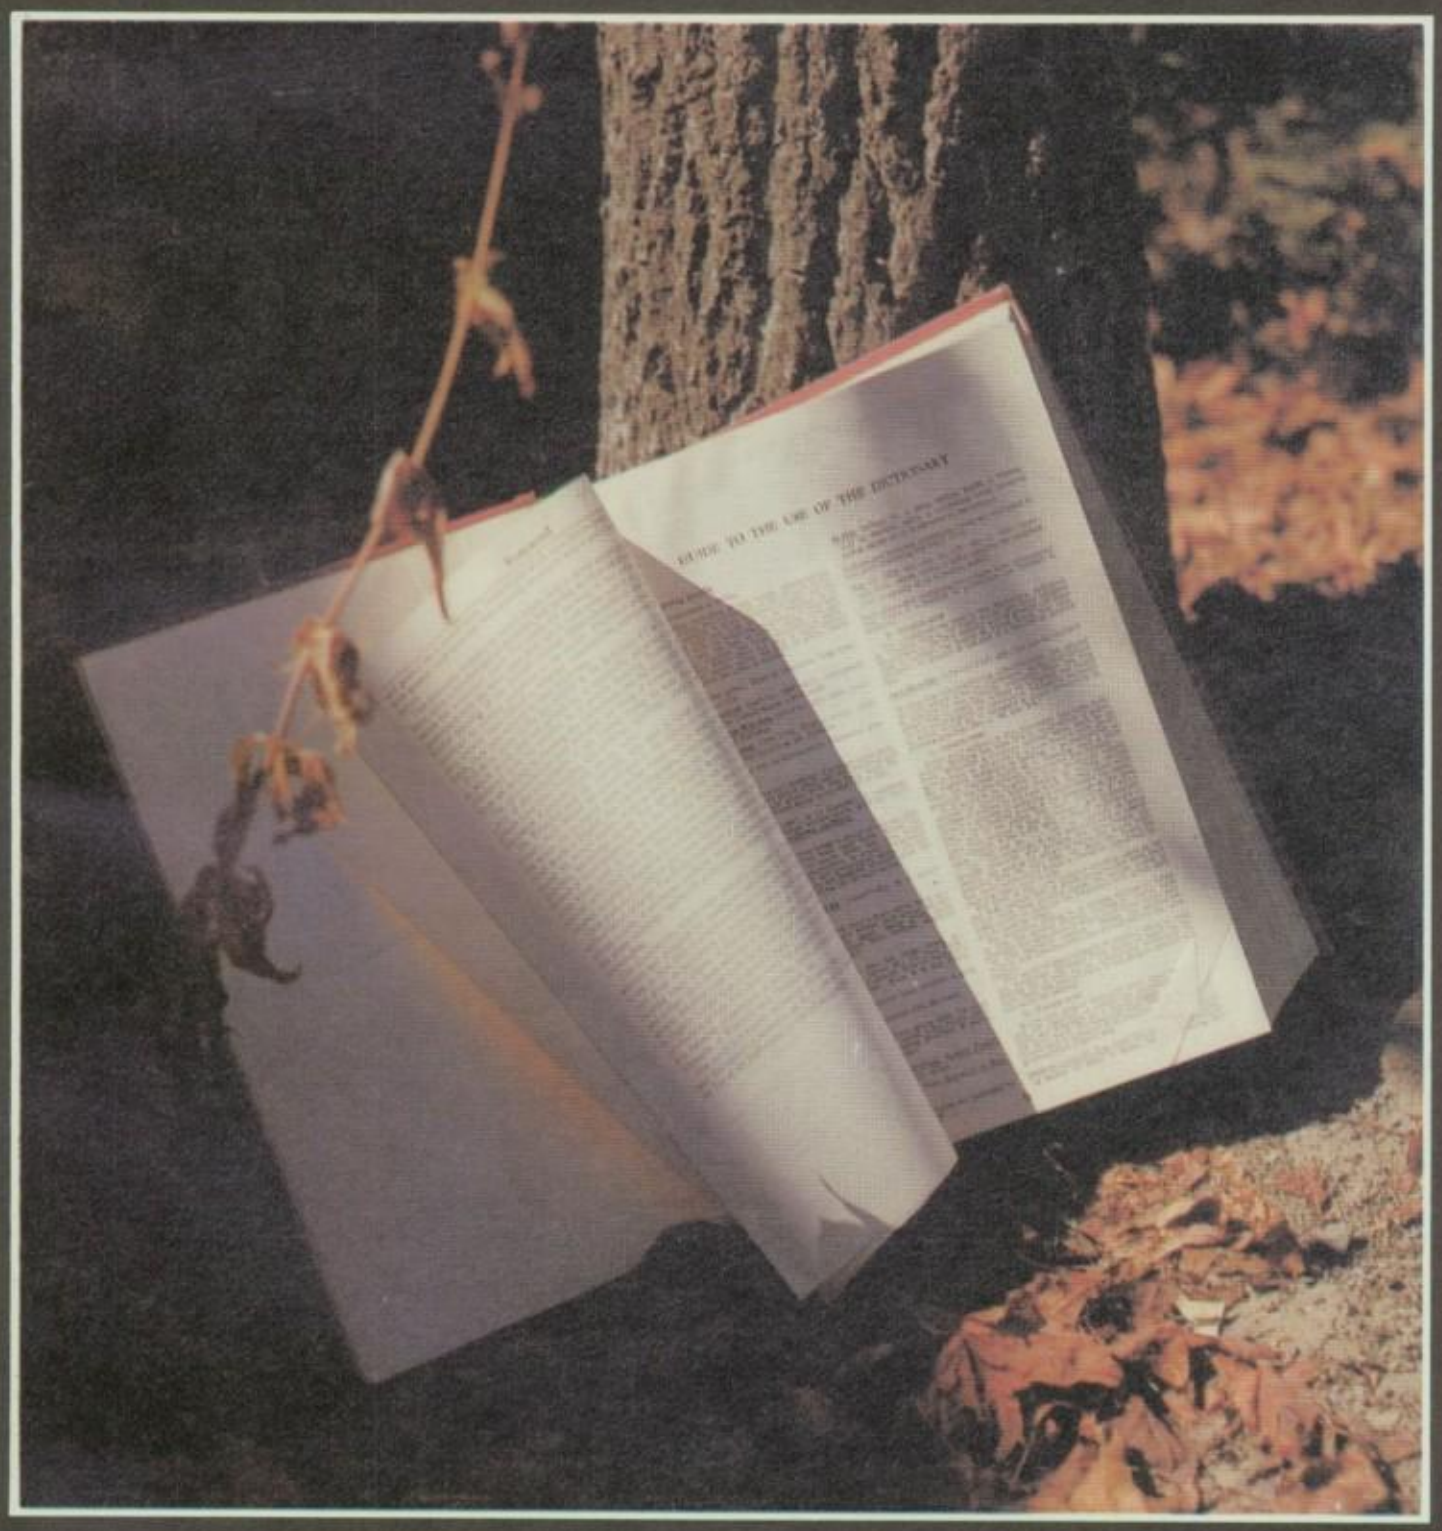
Change for the sake of change is meaningless. There has to be motivation, dedication, and desire.



For if not these things the sorrows and tears will not be justified into the changes of our future.

The love lost will not teach and the triumphs and joys will not be remembered.



Each tear, triumph and smile should be put into the scrapbooks of our minds, never forgetting to save a space for the experiences and changes ahead.

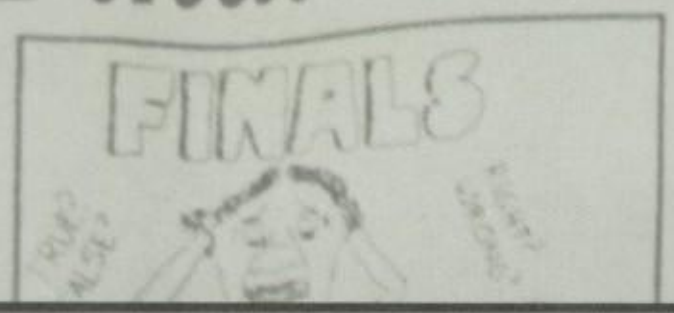
POINT — COUNTERPOINT:

The Final Decision



by DON SHERWOOD

Final exams are typical of an ill-constructed educational system and representative of an archaic grading procedure.

For decades, students have confronted teachers about the semi-annual test and, in doing so, raised several questions about its many faults.

Of the many complaints, most notable is the thought that too much emphasis is placed on the test alone. By doing "A" work throughout the course of the semester and doing poorly on the final exam, a student can easily drop to a "B" or maybe even a "C" grade for the semester. Such a grade would be ridiculous considering prior work, and yet for persons

To add to this problem, teachers and their respective departments are making the final exam much too difficult for the average student. It is irresponsible for teachers to expect full retention of chapters gone by months before the actual test. If teachers are not what they exp students to know, exam becomes a effort in futility.

Finals constru departments insi single teachers (a Math Departmen here knows to material not gone some classes. students who ha been instructed low points bel testing begin. logical replacem the final exam consisting of que

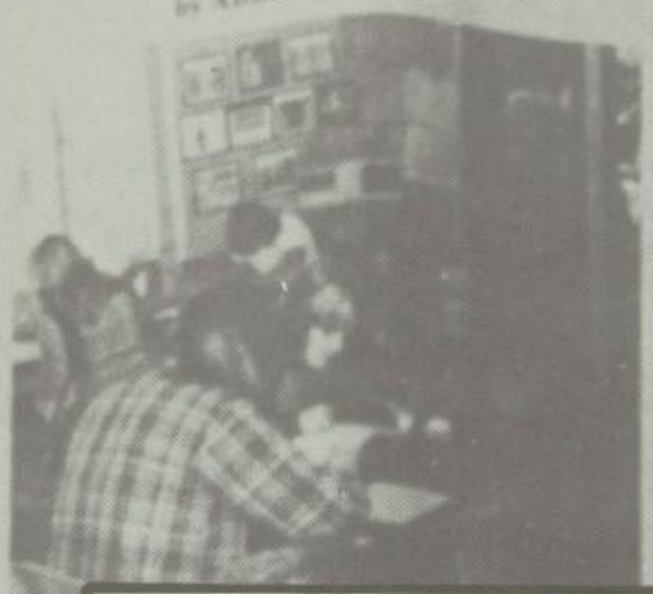
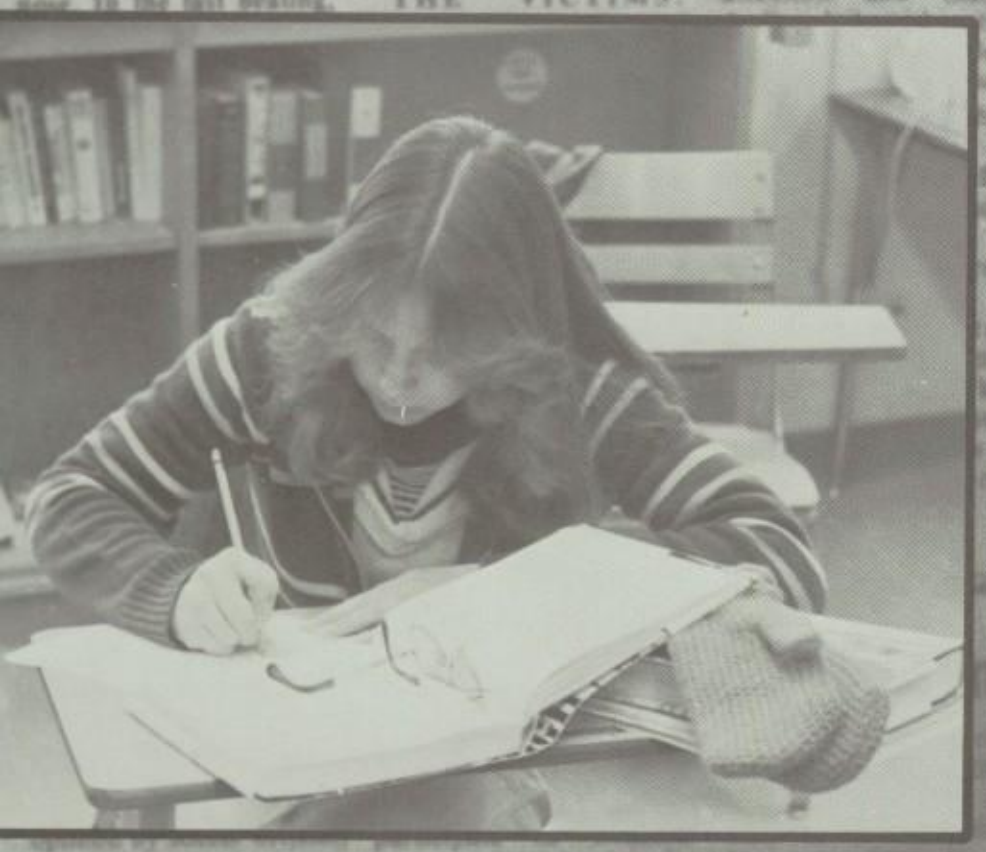
MADRONE: The Inside Story

by ABBIE HARRIS

What is that conglomeration of buildings located at the end of SRHS's dirt parking lot? "I don't know," answered one freshman solemnly, "but I heard that if you walk by there you might get beat up." We hope to present the truth about Madrone





a Madrone student. The majority of the students will not return to SR or TL. The reasons include the fact that regular high schools have "too much competition for grades, the teachers are too uptight and the classes are too crowded," declared one junior. A senior girl responded, "It is easier going here because there is less hassle between the teachers and students." The students are on a first name basis with their teachers which places less emphasis on the "formal teacher" roles.

Teachers are under no pressure to cover specified amounts of work per semester, which enables them to help each individual separately. Greg Daniels chooses to teach at Madrone rather than at TL because "I prefer the environment, it's more humane. Here I know all the kids and can be more open with the teachers and students. The interaction between students and teachers is honest and open."

This year Peer counseling was reintroduced to SRHS after a years's absence. The year has been one of rebuilding for the program, and the participants worked hard to build a respectable image while providing a useful and needed service to the school.

Mr. Byer: "Close-up is a terrific opportunity to learn about the Federal Government "Close-up" in Washington. We talk with everybody who is a somebody. Not only is it educational but it is a ball socially, banquets, dances, the theatre . . . as well as government . . .

Ms. Franklin: The importance of "Close-up" to each student is the realization that the government consists of people who are available and that the government is as good as the people we elect and appoint. Hopefully these "Close-up" students will someday be the good people in the office.

1978 Searchlight Staff

The theme of this book is change, so it seems appropriate that we chose this year to make such drastic changes in the book. It has been fun to change the sectioning and to add the special effects! We hope you will appreciate the change for change and enjoy the book.

As editor, I would like to extend my thanks to the entire staff, and especially to Julie Lavezzo for her hard word and general co-operation even if she was always late, to Dodee Rossi for her high spirits and target practice, to Kevin Witt for always being there to get the job done, and to Kim Romo for being my general right hand aid.

I would also like to thank Mr. Carr for being so willing and ready to help but always letting the staff make all the final decisions.

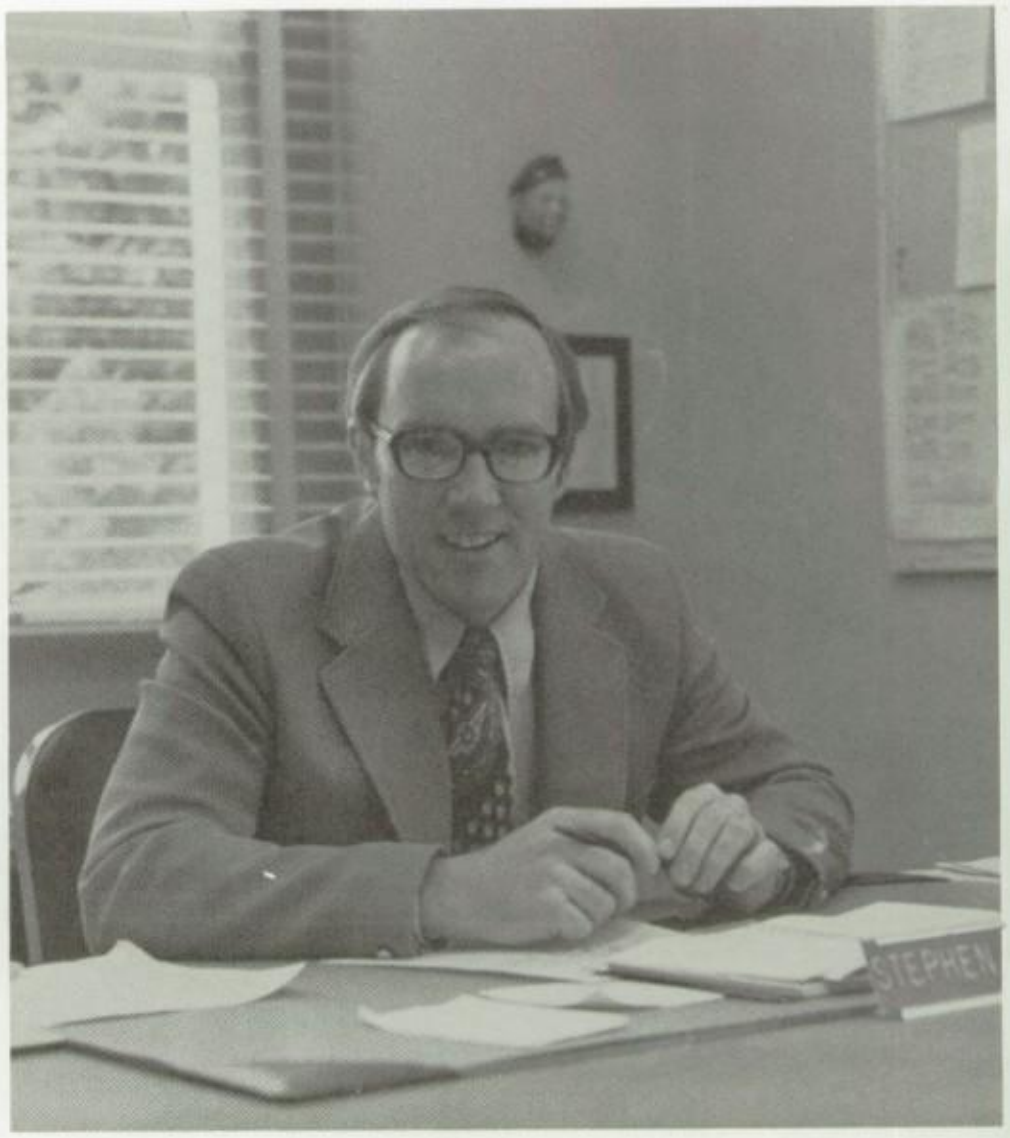
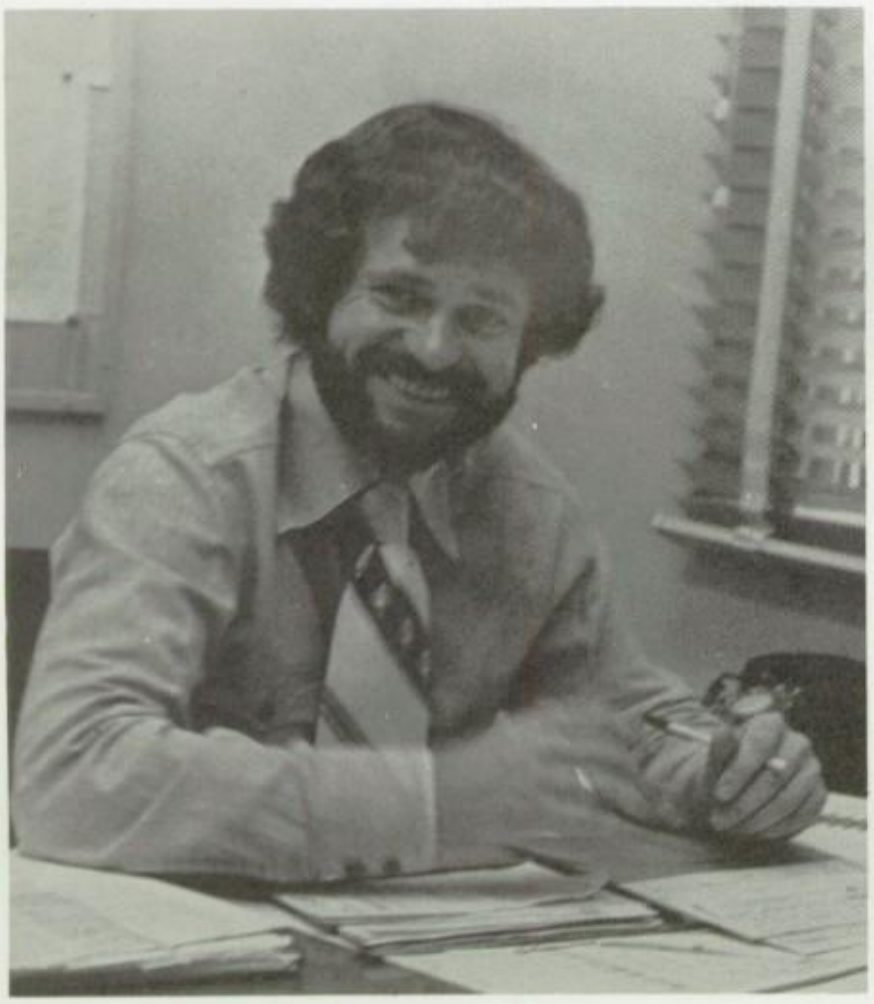
Administration:



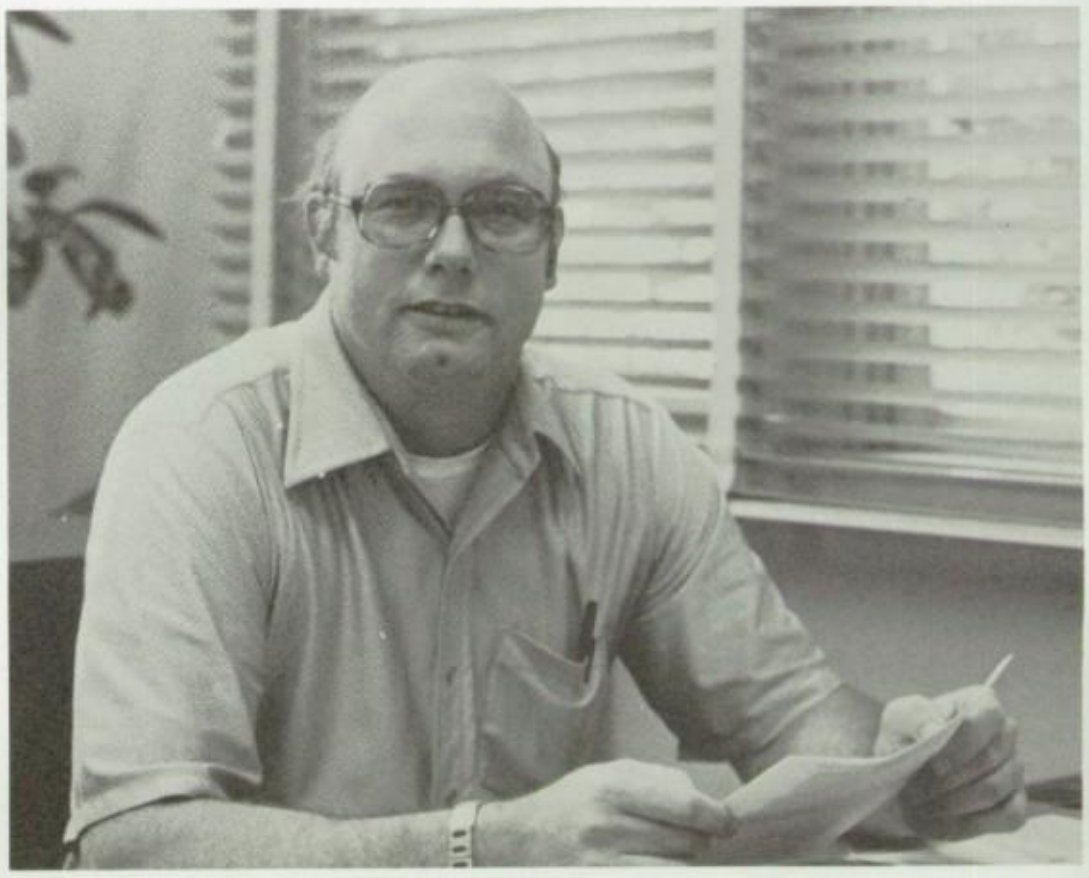
Dr. Steven P. Collins — Principal

"Change" is the overall theme of this edition of Searchlight. What an appropriate topic! The changes in this country and world, even since this year's seniors were born, were beyond the imagination of most of us. Such technological changes as the placing of men on the moon, and such political changes as the assasination of one president and the resignation of another, could hardly have been imagined. None of us predicted that we would have to be closing schools because of lack of enrollment. We were all accustomed to growth. The challenge for the schools and for you graduating students is to prepare for the unknown, the changes that will certainly occur in the future. Even now there is more mobility and change in careers than there ever has been in our history. We must be educationally and emotionally prepared for these changes so that our world becomes an even better place to live. I know you students are able to and will meet these challenges with success. Good Luck.



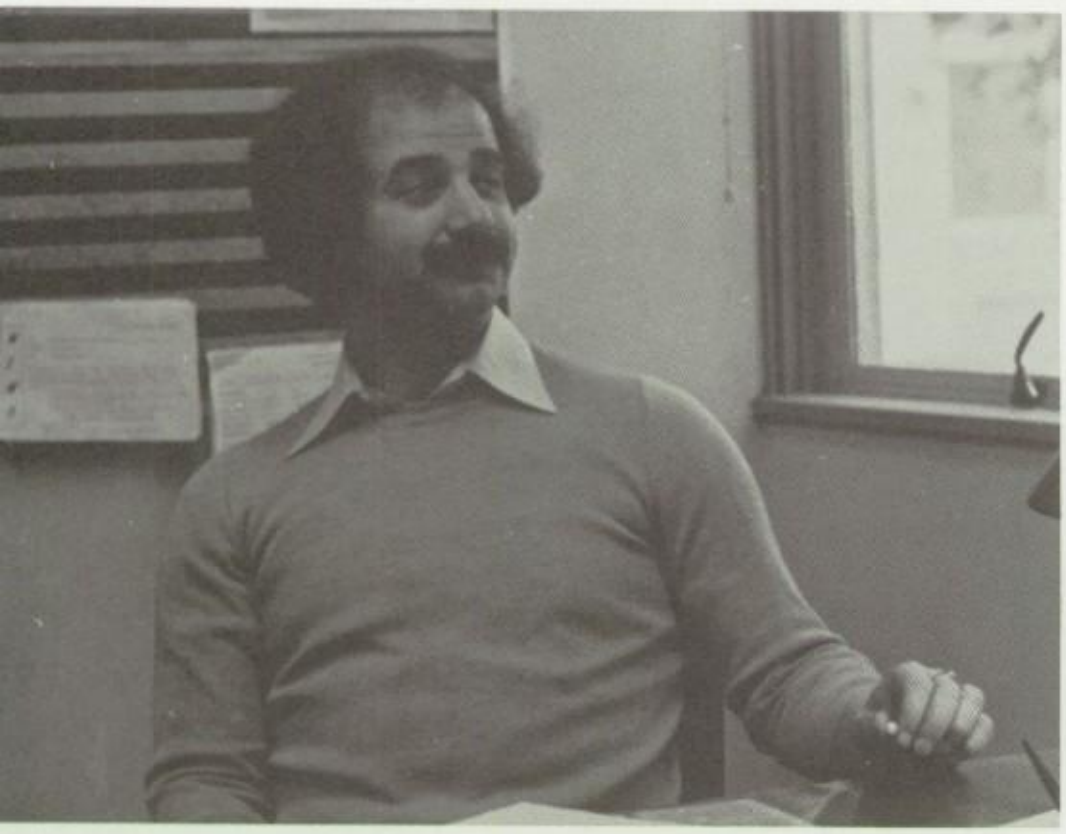
Jeff Thorner — Assistant Principal

What makes S.R.H.S. a truly rewarding and interesting scene is the rich diversity in the social cultural backgrounds of staff and students. It is one of our most important educational assets.



Dr. John Donovan — Assistant Principal

My congratulations to the Yearbook Staff on their ability to capture the spirit and essence of San Rafael High School. It is my hope that this book will enable the Class of 1978 to stop time through the memories recalled of their high school experiences that are reflected in this yearbook.



Joe Brighenti — Assistant Principal

Changes. Sure. There have been lots of them. San Rafael High was significantly different in 1968, my first year here. At that time there was a clearly defined dress code specifying appropriate length of boys' hair and girls' skirts. There was a closed campus, hall passes, very few class cutters, little if any student representation on school and district committees. Perhaps most significantly, there was much more money available to run the schools. For me, change and growth are synonymous.

iane Pico — Director of Student Activities

Many activities this past year remained basically the ame as in prior years with the usual minor changes. Title X directives made it necessary to see that both boys and irls were given equal opportunities to participate in ctivities, resulting in a change in Homecoming rocedures. Homecoming Princes were selected along ith Princesses. Some new activities arose — radio tation KSRH got off the ground and the student officers ere all able to enroll in a student leadership class.

Mike Diaz — Athletic Director

Mr. Diaz is serving as the temporary Athletic Director. The athletic department has seen many changes during the past year. Because of Title IX, the girls' and boys' athletics have been equalized, so that now girls have the same number of sports offered as boys do. Another change is that this year no J.V. teams existed, instead frosh-soph teams were formed.

S.W.A.S.

S.W.A.S. had an active and exciting year. S.W.A.S. took many field trips in conjuction with it's academic work. S.W.A.S. traveled to see Alcatraz, the Exploratorium, the Fisherman's Wharf, Golden Gate Park, the Oakland Museum, the Intergal House, Muir Woods, and Angel Island.

S.W.A.S. enjoyed hiking together. We often hiked at McNear's beach. Our final P.E. activity first semester was a hike to the top of Mt. Baldy. Second semester ends with an ascent to the top of Angel Island.

S.W.A.S

Career Day was a popular S.W.A.S. event. During a morning in September, S.W.A.S. students observed selected people at work in the San Rafael area. Students chose to visit such occupations as architects, radio announcers, models and rangers.

S.W.A.S. teachers: Dave Dwight, Tom Truchan, Bret Tovani and Bill Rigsbee.

CREATIVITY

This is to acknowledge the help of Dexter LeBlanc, Rob Somers, Laurie Cerf, Kathryn Baldwin, Tracy Rector, Frank Bevans, and Kathy McCann —
And a special thanks, with all my love, to Tom Farrella, for all of the fantastic, beautiful pictures in this section.

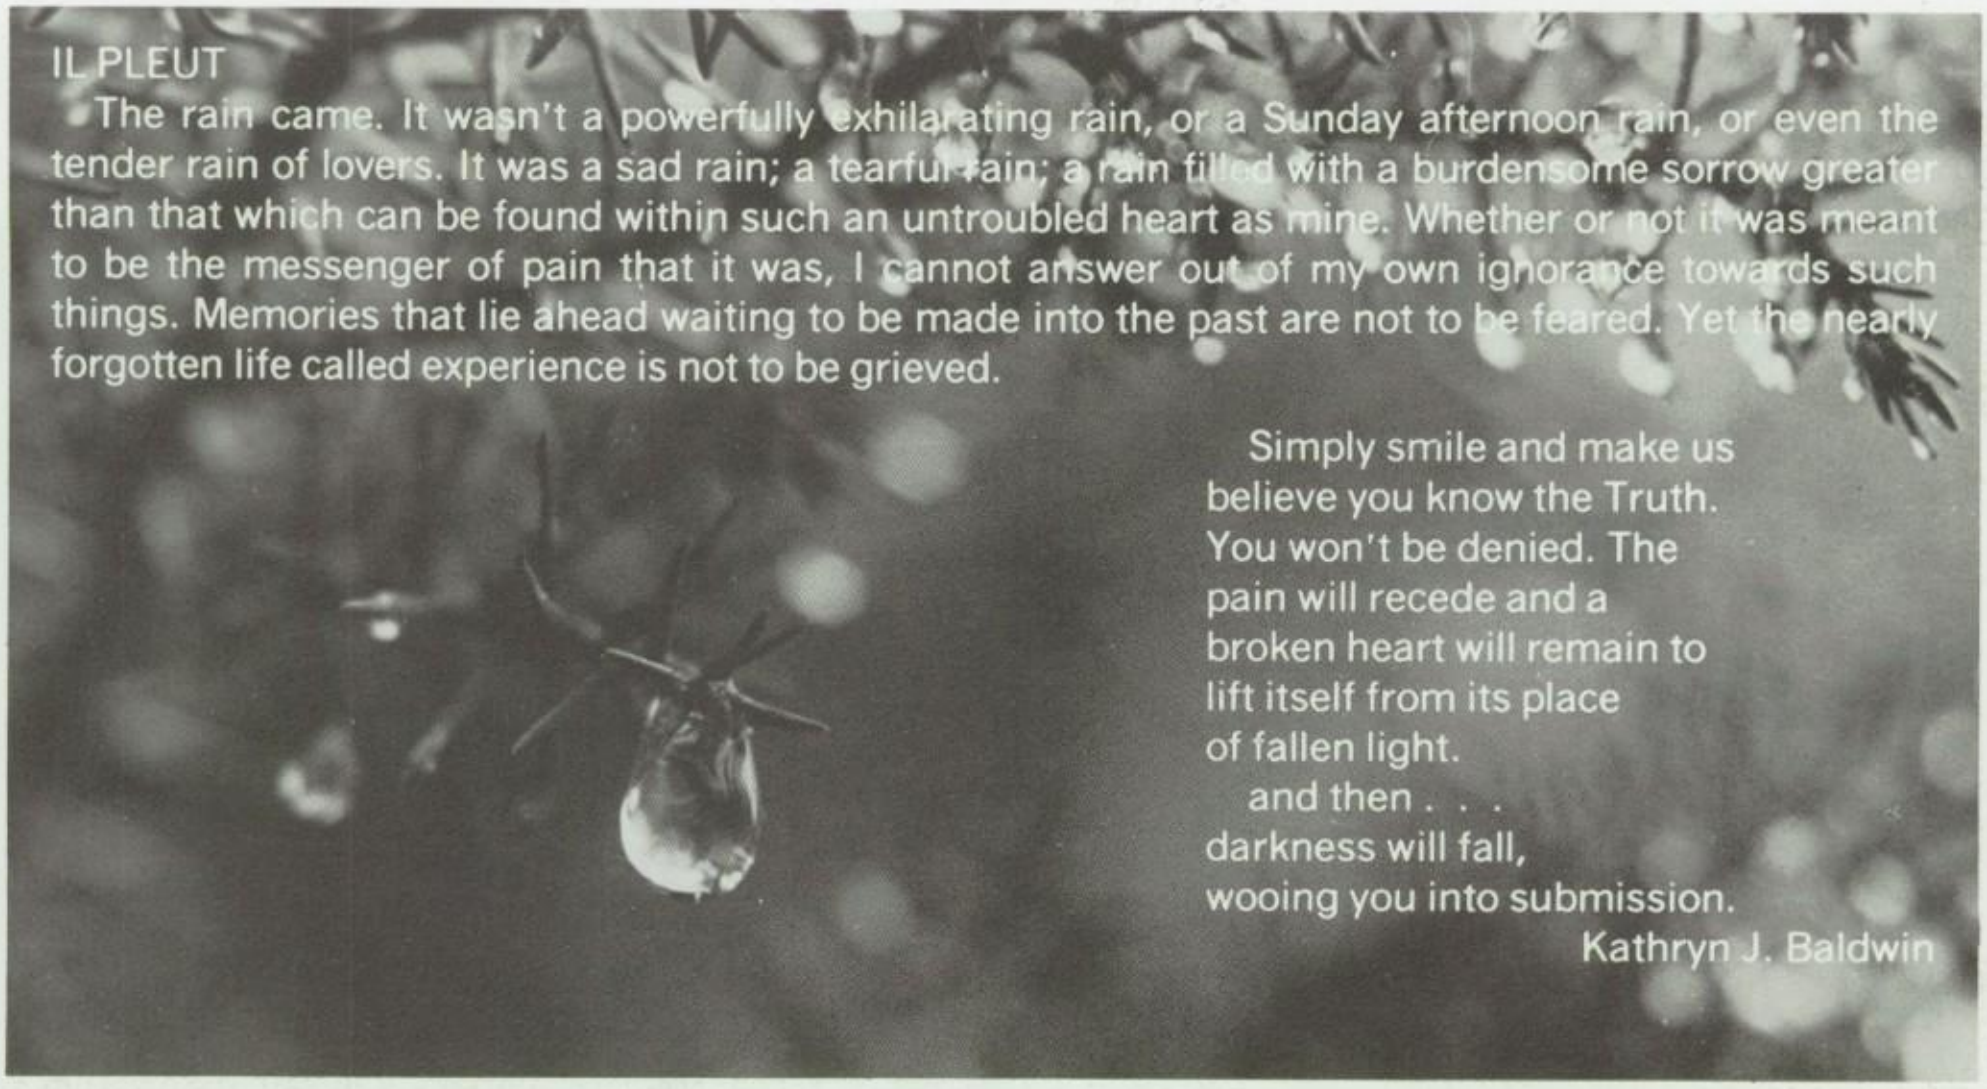
to her I give all myself,
She is who I trust.

Frank Bevans

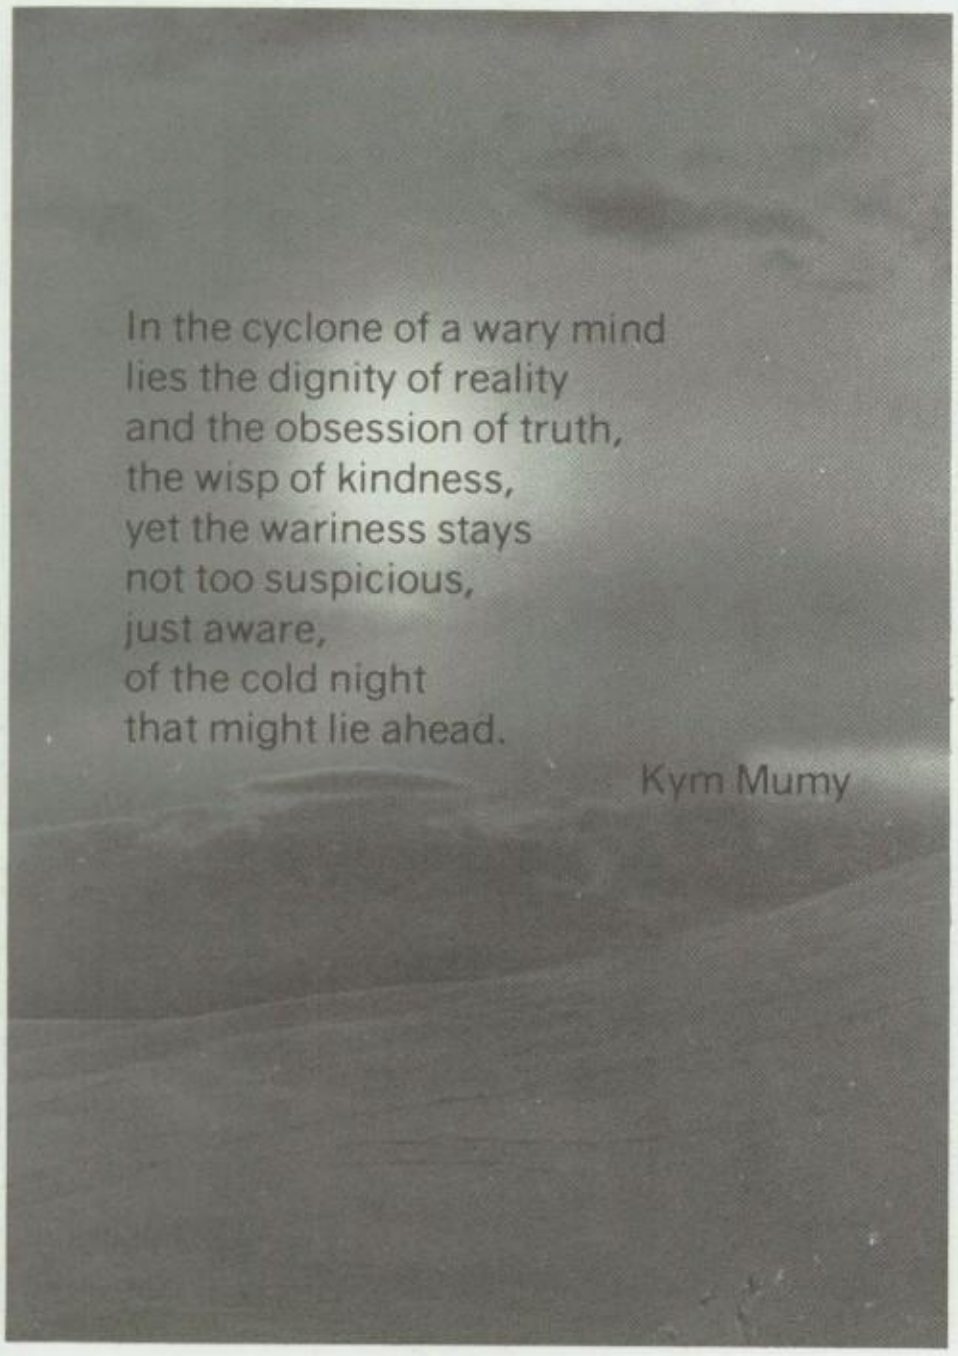
IL PLEUT

The rain came. It wasn't a powerfully exhilarating rain, or a Sunday afternoon rain, or even the tender rain of lovers. It was a sad rain; a tearful rain; a rain filled with a burdensome sorrow greater than that which can be found within such an untroubled heart as mine. Whether or not it was meant to be the messenger of pain that it was, I cannot answer out of my own ignorance towards such things. Memories that lie ahead waiting to be made into the past are not to be feared. Yet the nearly forgotten life called experience is not to be grieved.



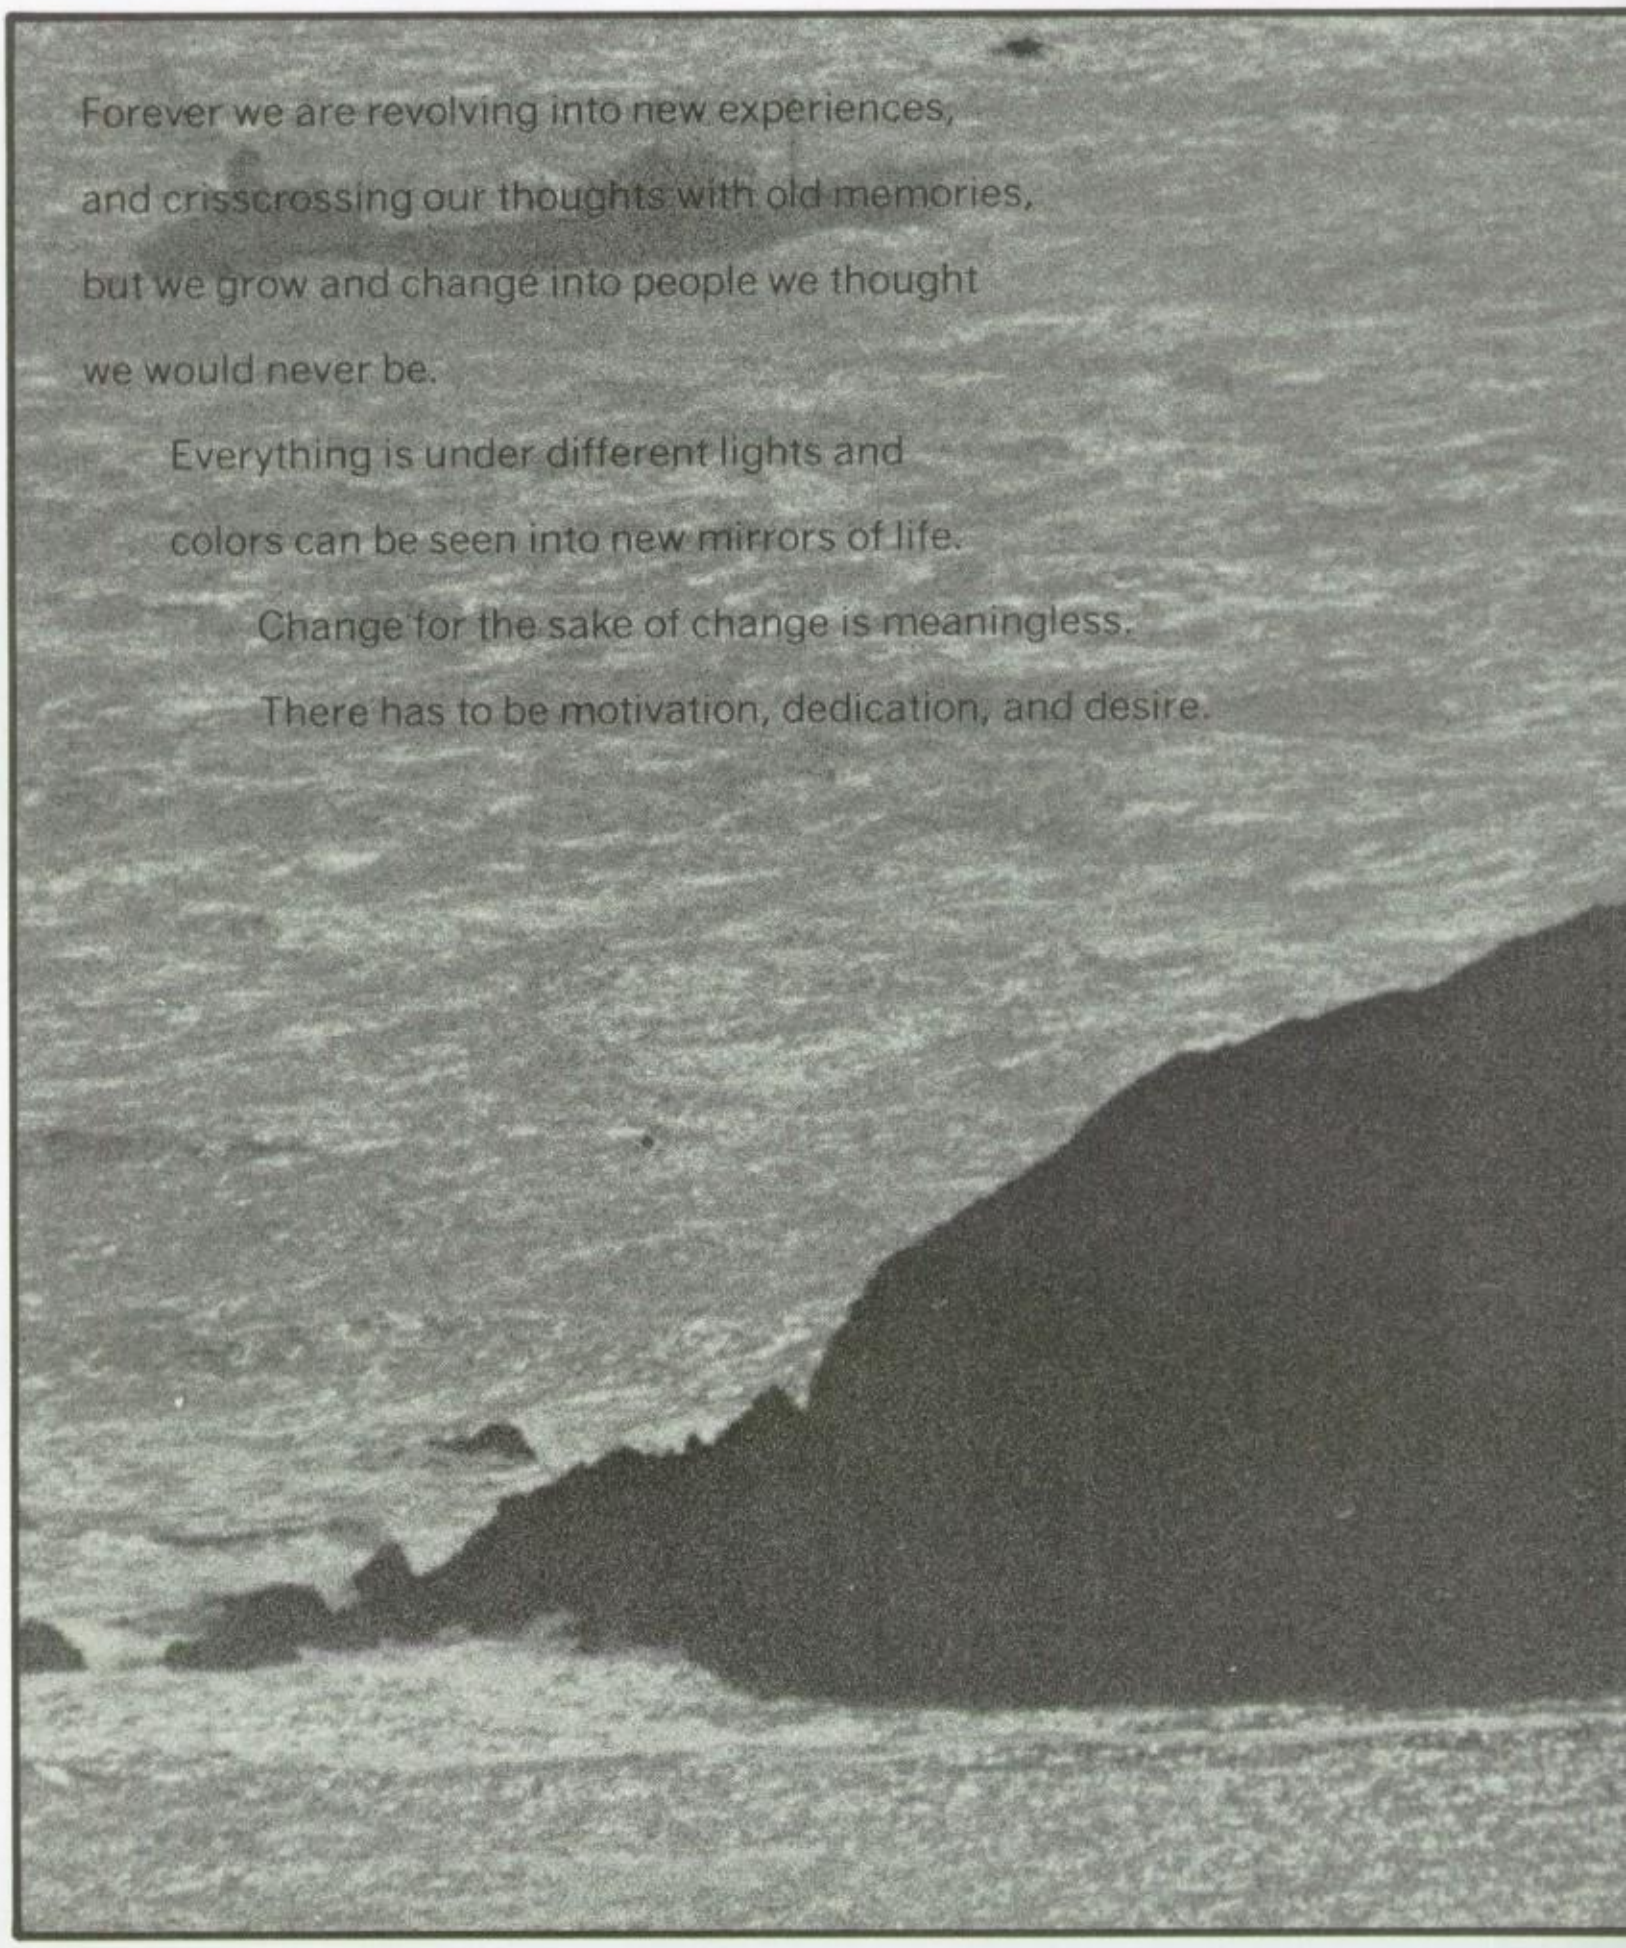
Simply smile and make us
believe you know the Truth.
You won't be denied. The
pain will recede and a
broken heart will remain to
lift itself from its place
of fallen light.
and then . . .
darkness will fall,
wooing you into submission.

Kathryn J. Baldwin

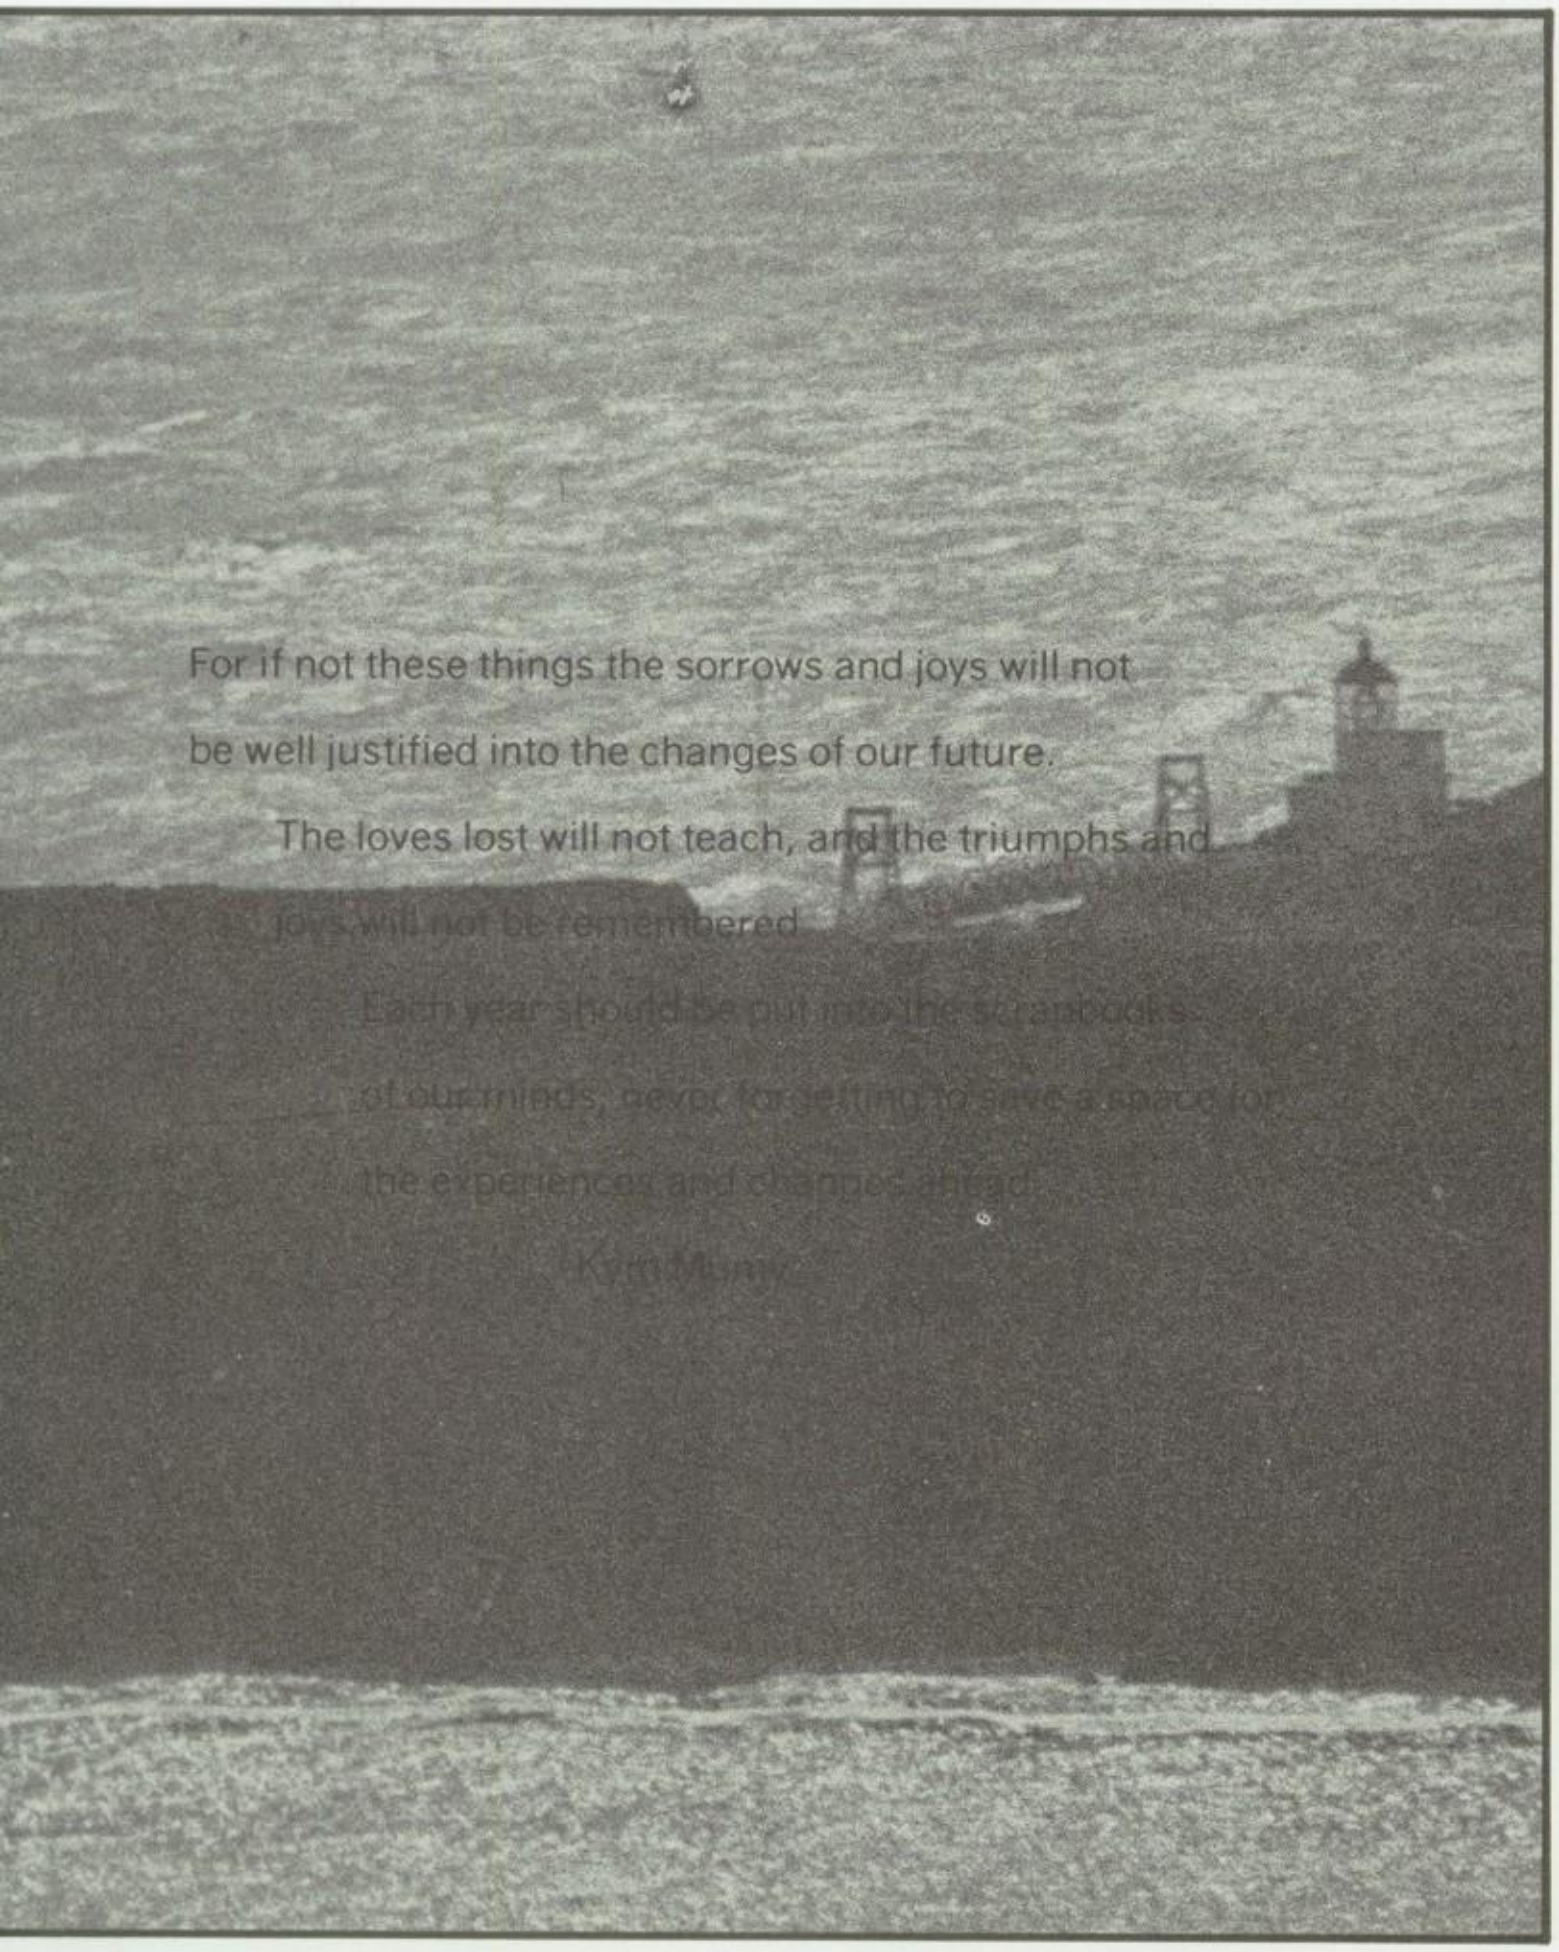


In the cyclone of a wary mind
lies the dignity of reality
and the obsession of truth,
the wisp of kindness,
yet the wariness stays
not too suspicious,
just aware,
of the cold night
that might lie ahead.

Kym Mumy



Forever we are revolving into new experiences,
and crisscrossing our thoughts with old memories,
but we grow and change into people we thought
we would never be.
Everything is under different lights and
colors can be seen into new mirrors of life.
Change for the sake of change is meaningless.
There has to be motivation, dedication, and desire.



For if not these things the sorrows and joys will not
be well justified into the changes of our future.
The loves lost will not teach, and the triumphs and
joys will not be remembered.
Each year should be put into the scrapbook
of our minds, never forgetting to save a space for
the experiences and changes ahead.
Kym Mony

Shine your light on me, O' Lord,
grant me as a hallow reed
from which the pith of self hath been blown—
That I may become a clear channel,
through which my Love may flow to others...

Frank Bevans '78

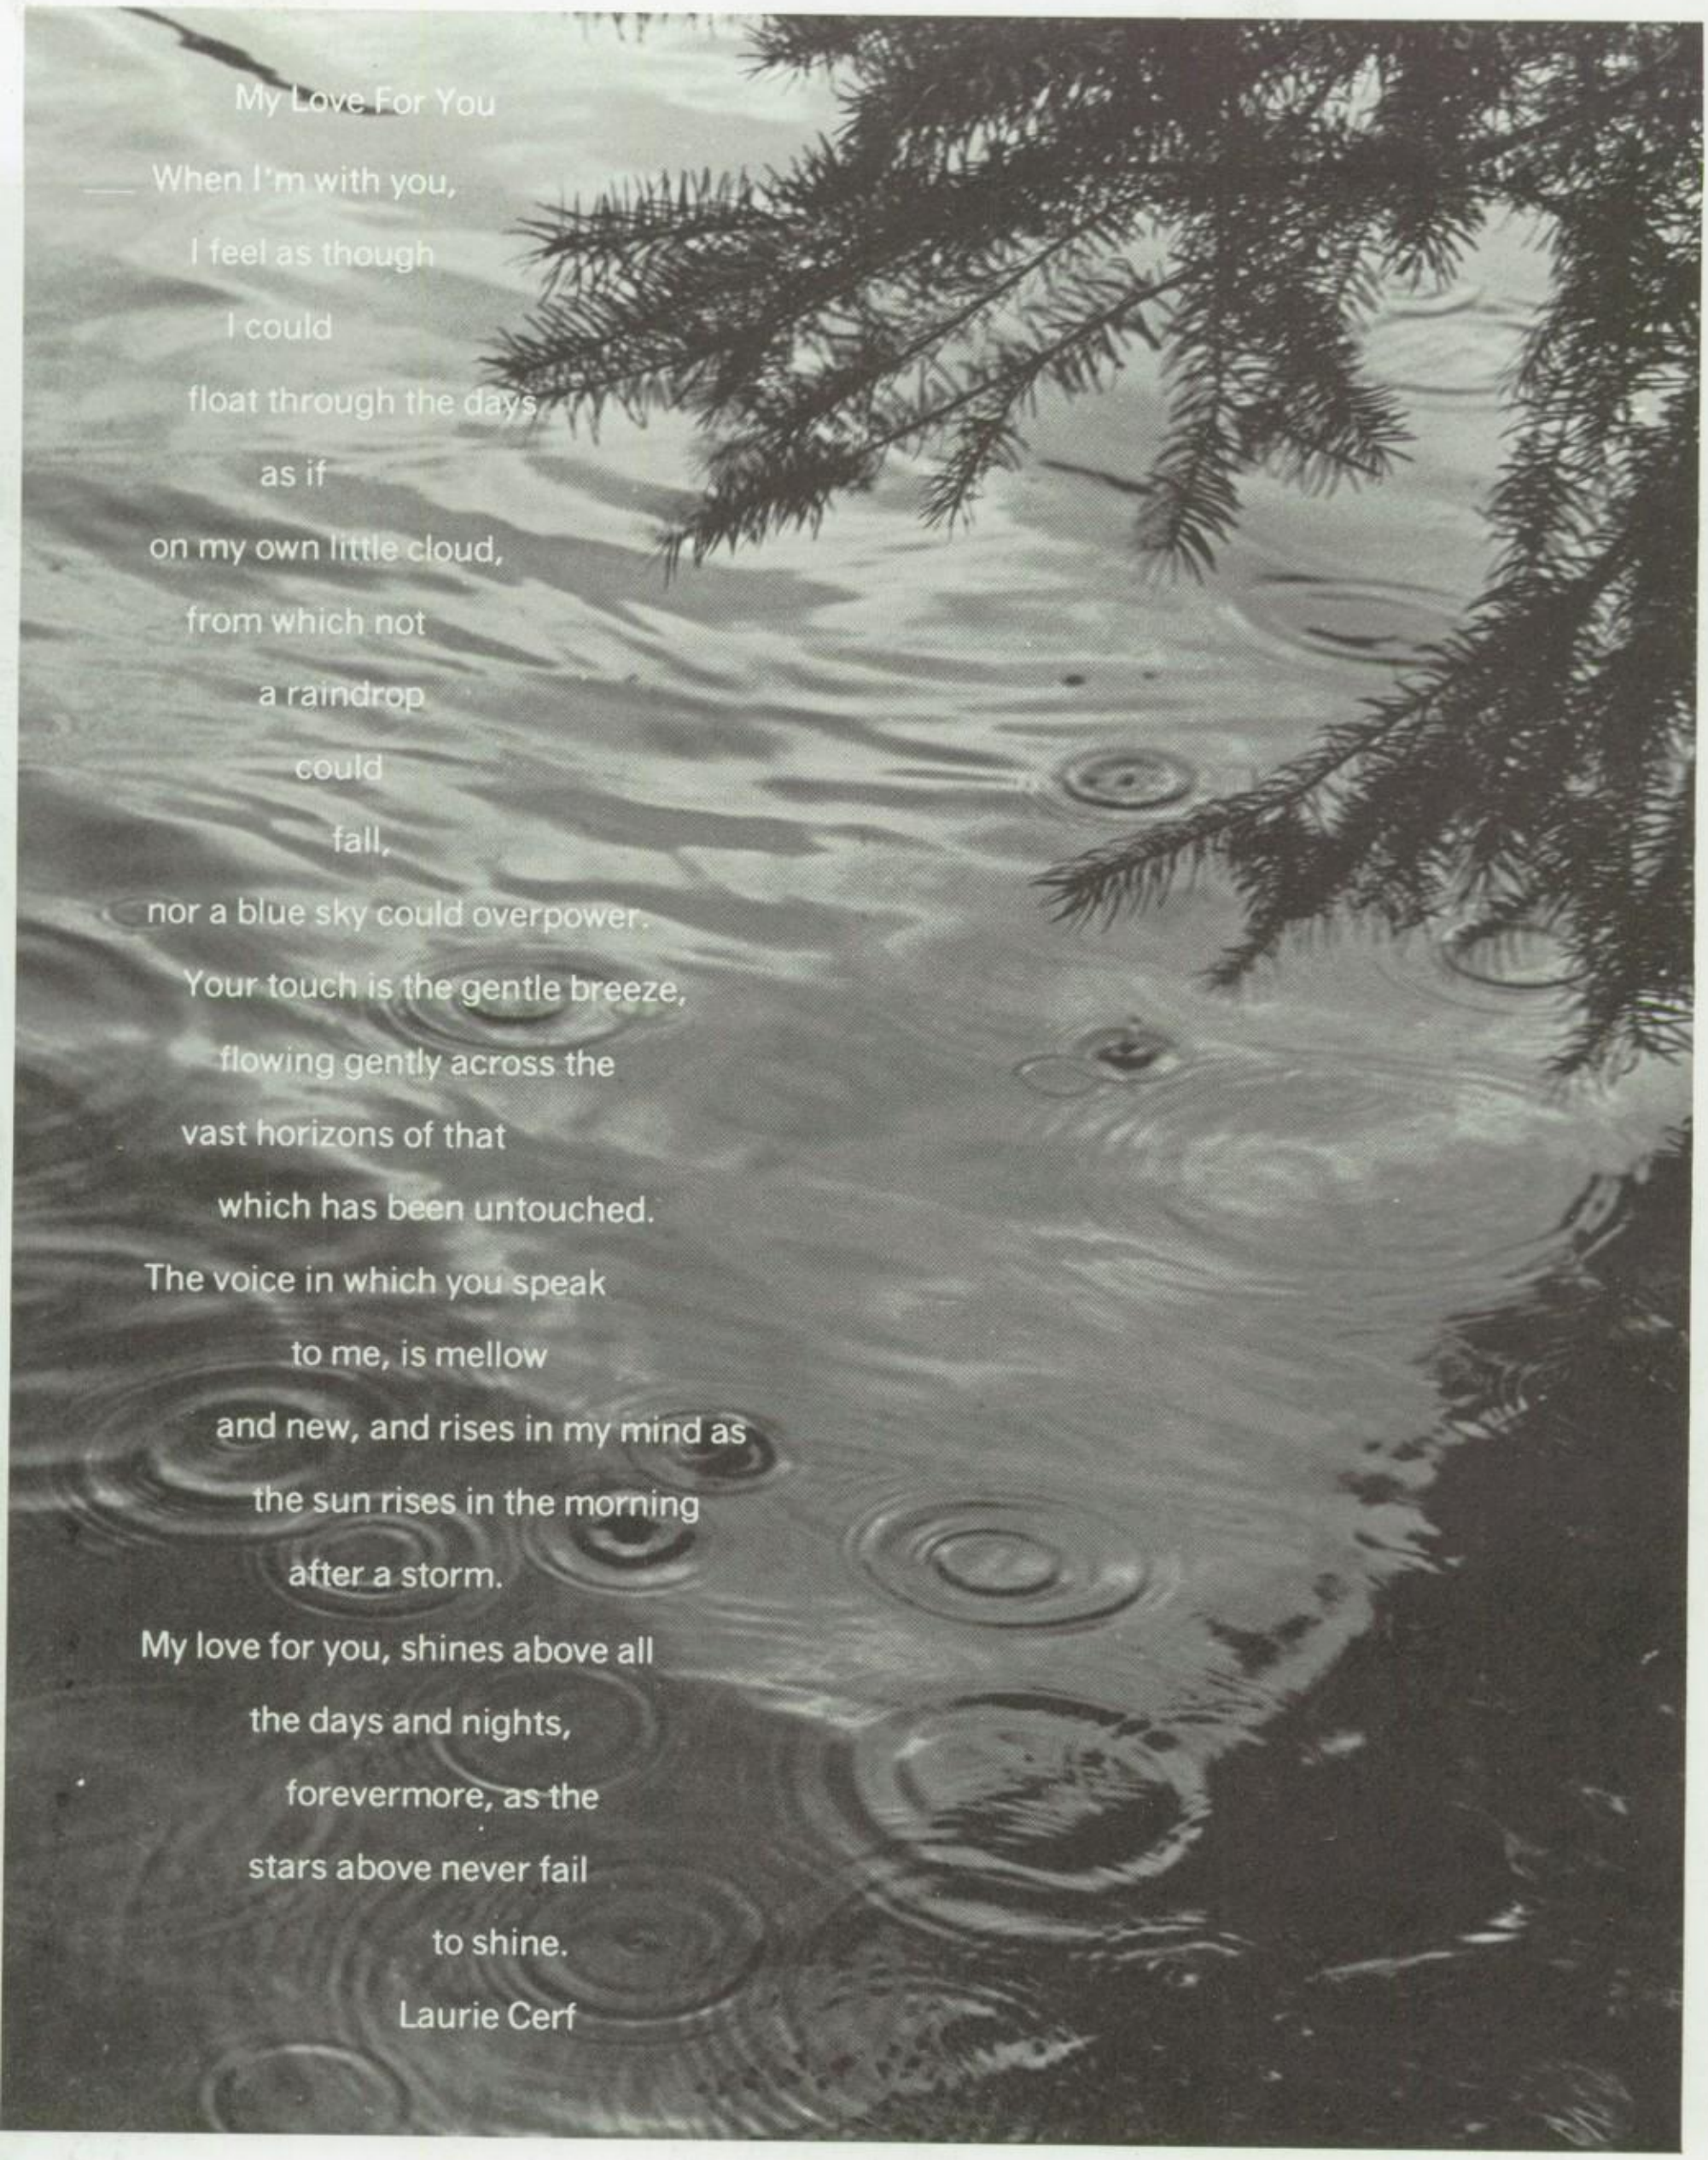
Beneath the folded
Flesh
I believe I saw
The whispering stone
Move
Striking the shadowed mind
With force
Of a great wind
Knocking its crippled detail
Apart

Striking again
And again
Its hardness surrendering
As that of a waterfall
Falling
Calling the name of sweet
Isolation
Apart
Yes, I believe I saw
The whispering stone
Move

Kym Mumy

My feel of today is a touch of splendor only because of you, because it is you I am thinking about. So tremendous the power to turn me around and pull me toward you. Something was calling and I came. I so want to believe you called with your heart. In all the millions of stars, to be in this instant eternity with you, is all I want.

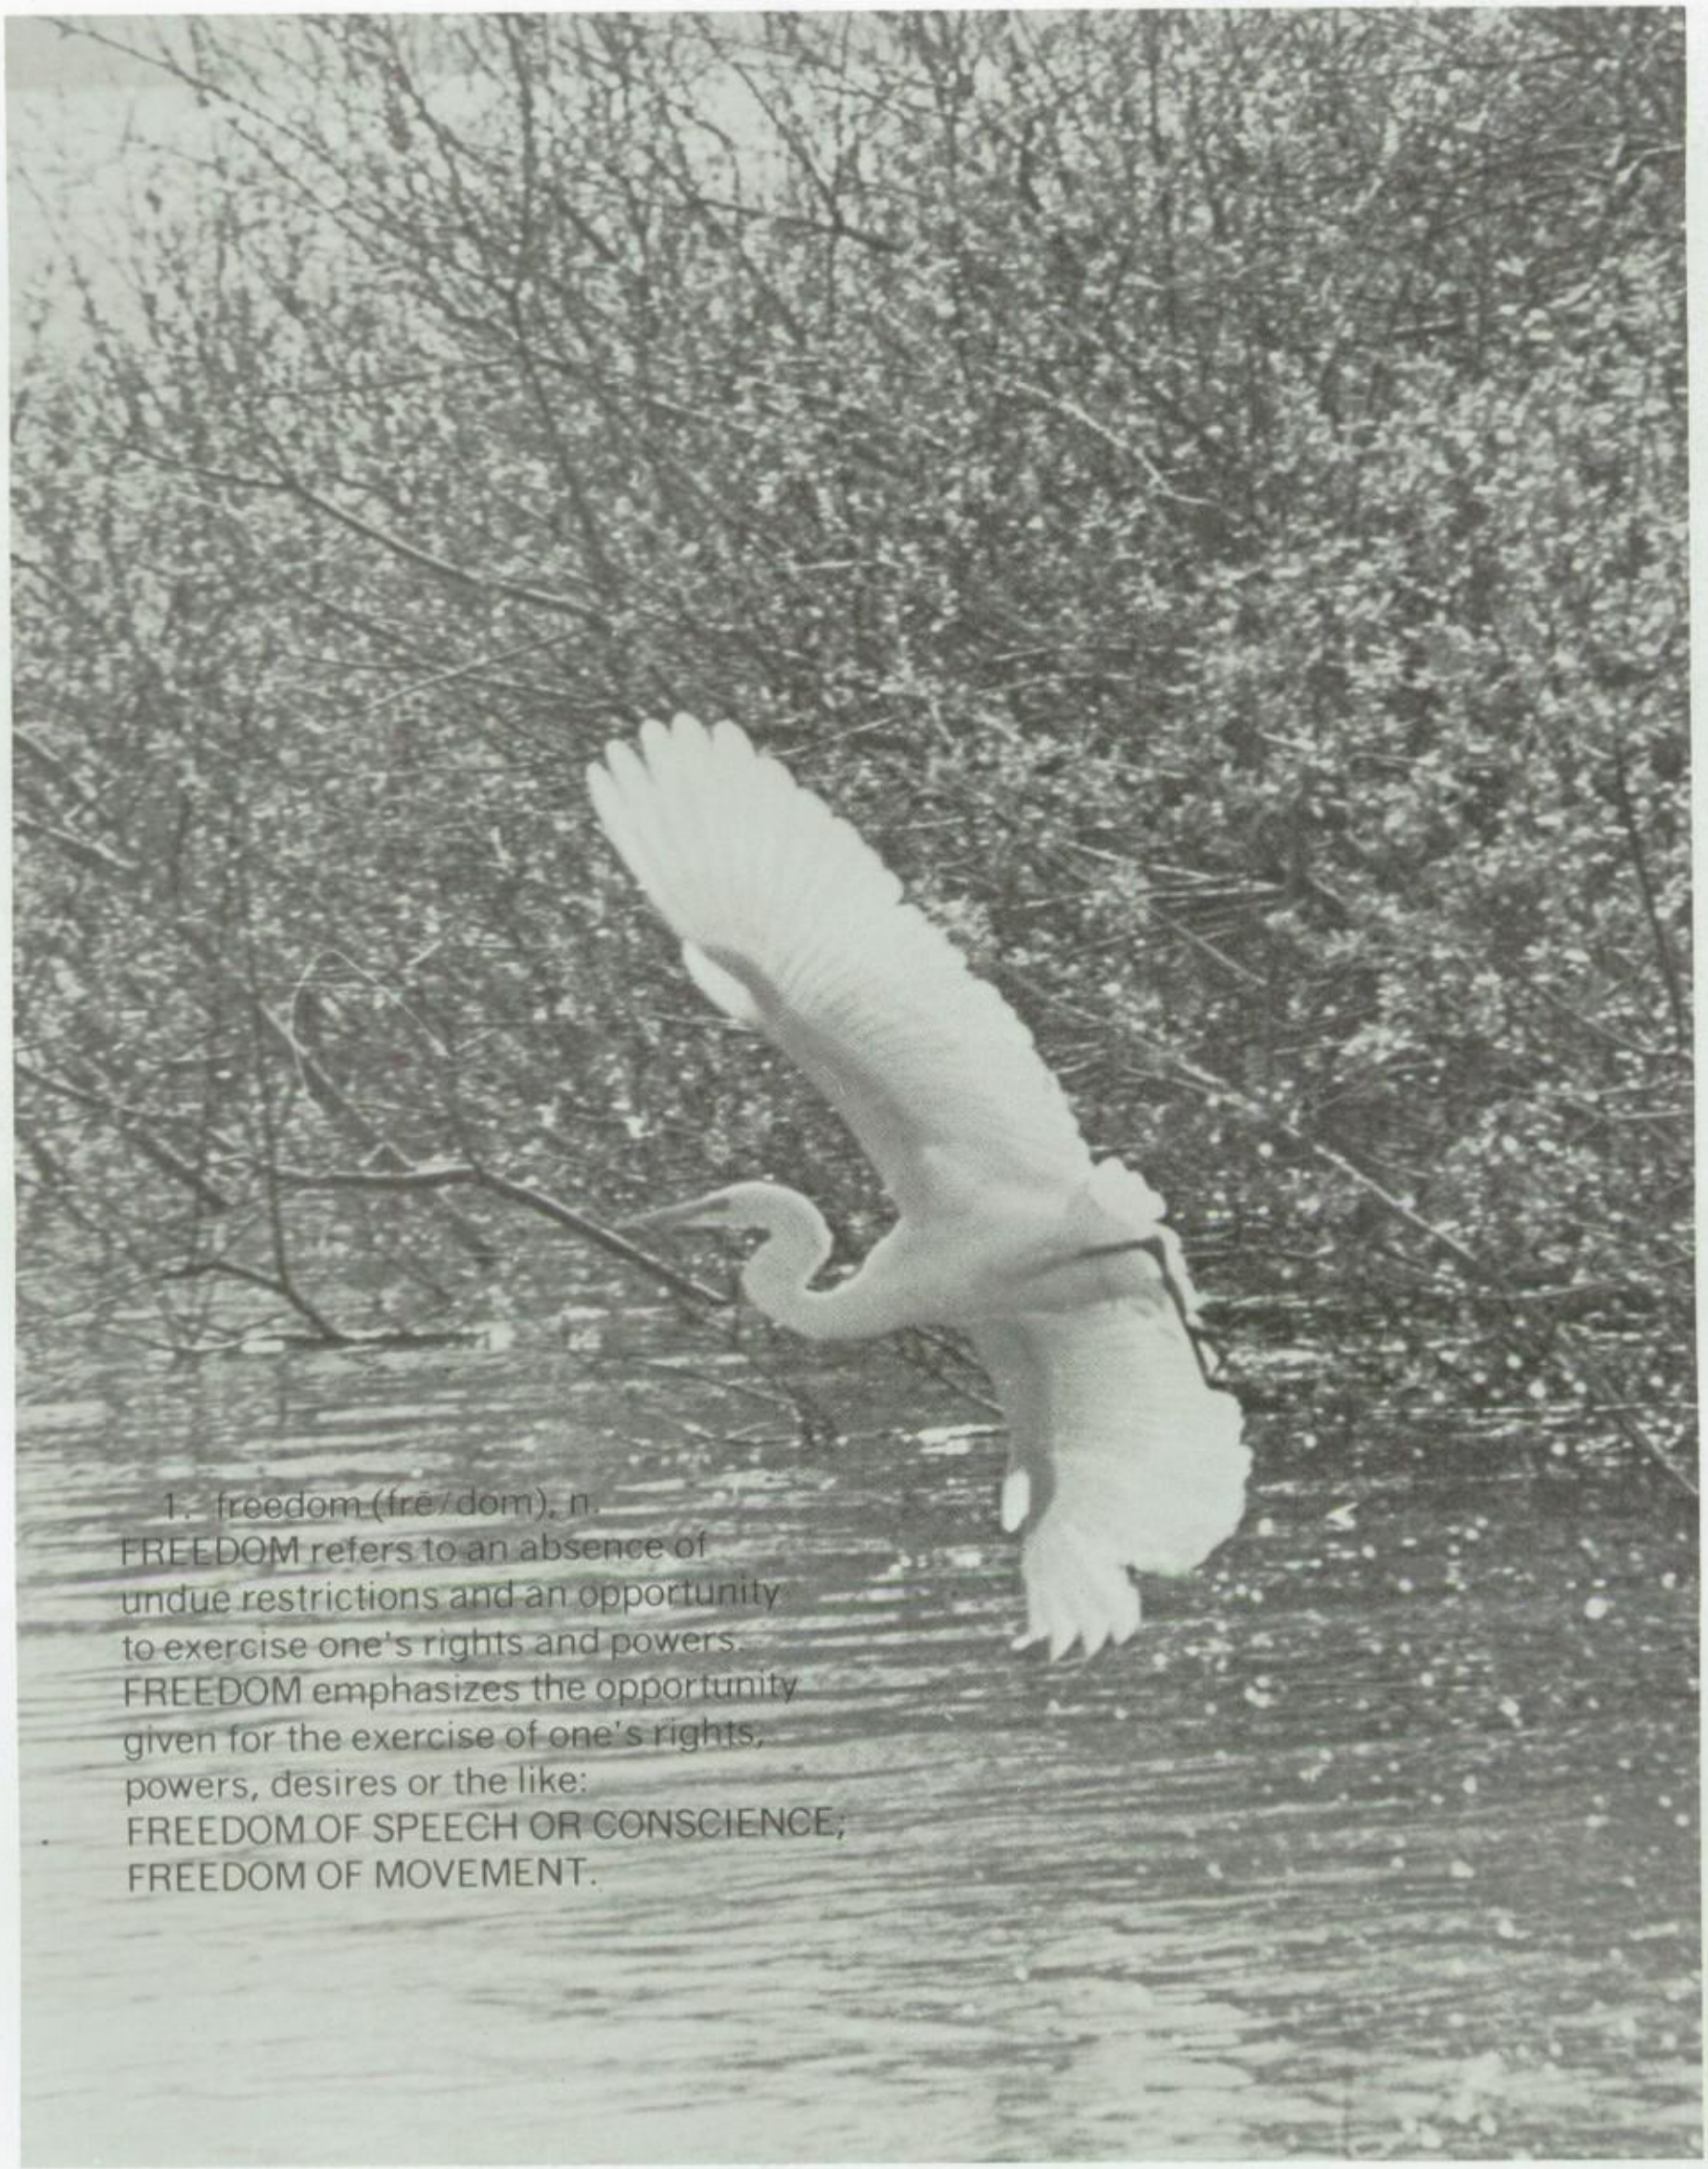
Tracy Rector
Lamp by Jill Thuma



My Love For You

When I'm with you,
I feel as though
I could
float through the days
as if
on my own little cloud,
from which not
a raindrop
could
fall,
nor a blue sky could overpower.
Your touch is the gentle breeze,
flowing gently across the
vast horizons of that
which has been untouched.
The voice in which you speak
to me, is mellow
and new, and rises in my mind as
the sun rises in the morning
after a storm.
My love for you, shines above all
the days and nights,
forevermore, as the
stars above never fail
to shine.

Laurie Cerf



1. freedom (frē/dom), n.
FREEDOM refers to an absence of undue restrictions and an opportunity to exercise one's rights and powers.
FREEDOM emphasizes the opportunity given for the exercise of one's rights, powers, desires or the like:
FREEDOM OF SPEECH OR CONSCIENCE;
FREEDOM OF MOVEMENT.

Mr. Chourre

Ever smiling, ever ready to give of his time, energy and innate wisdom, this bushy eyebrowed man whose innocent face and spirit suggests a profound mastery of the secret of living a full and rich life, will be missed most of all by those who work closest with him, his counselees, fellow counselors and the dedicated ladies who run the Counseling office. The class of '78 is proud to have him leave with us and wish him a continuing rich life ahead.

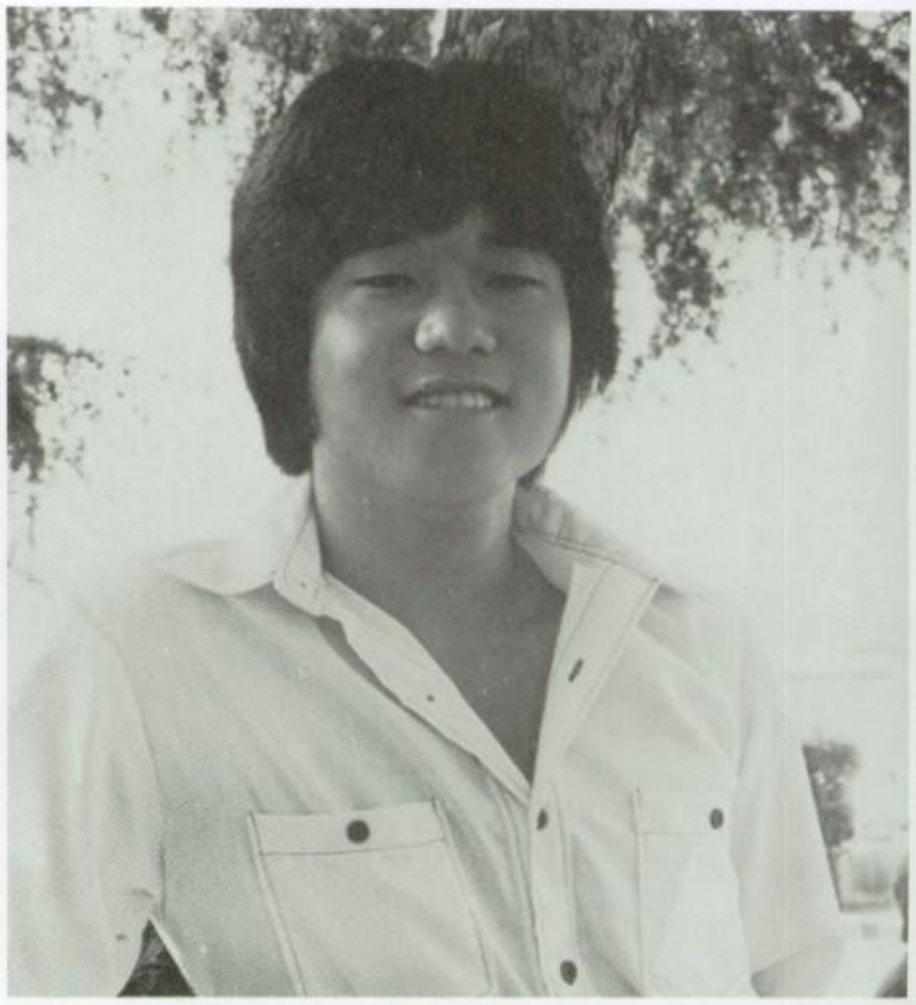
JUNIOR CLASS

The Class of '79 is a spirited and hard-working class reflected by our winning first prize in the Homecoming float contest. The effort and energy displayed by the members of this class has enabled the class of '79 to earn the reputation as the richest and most enthusiastic class in our school. We hope our success continues throughout our senior year so we may have a great senior ball.

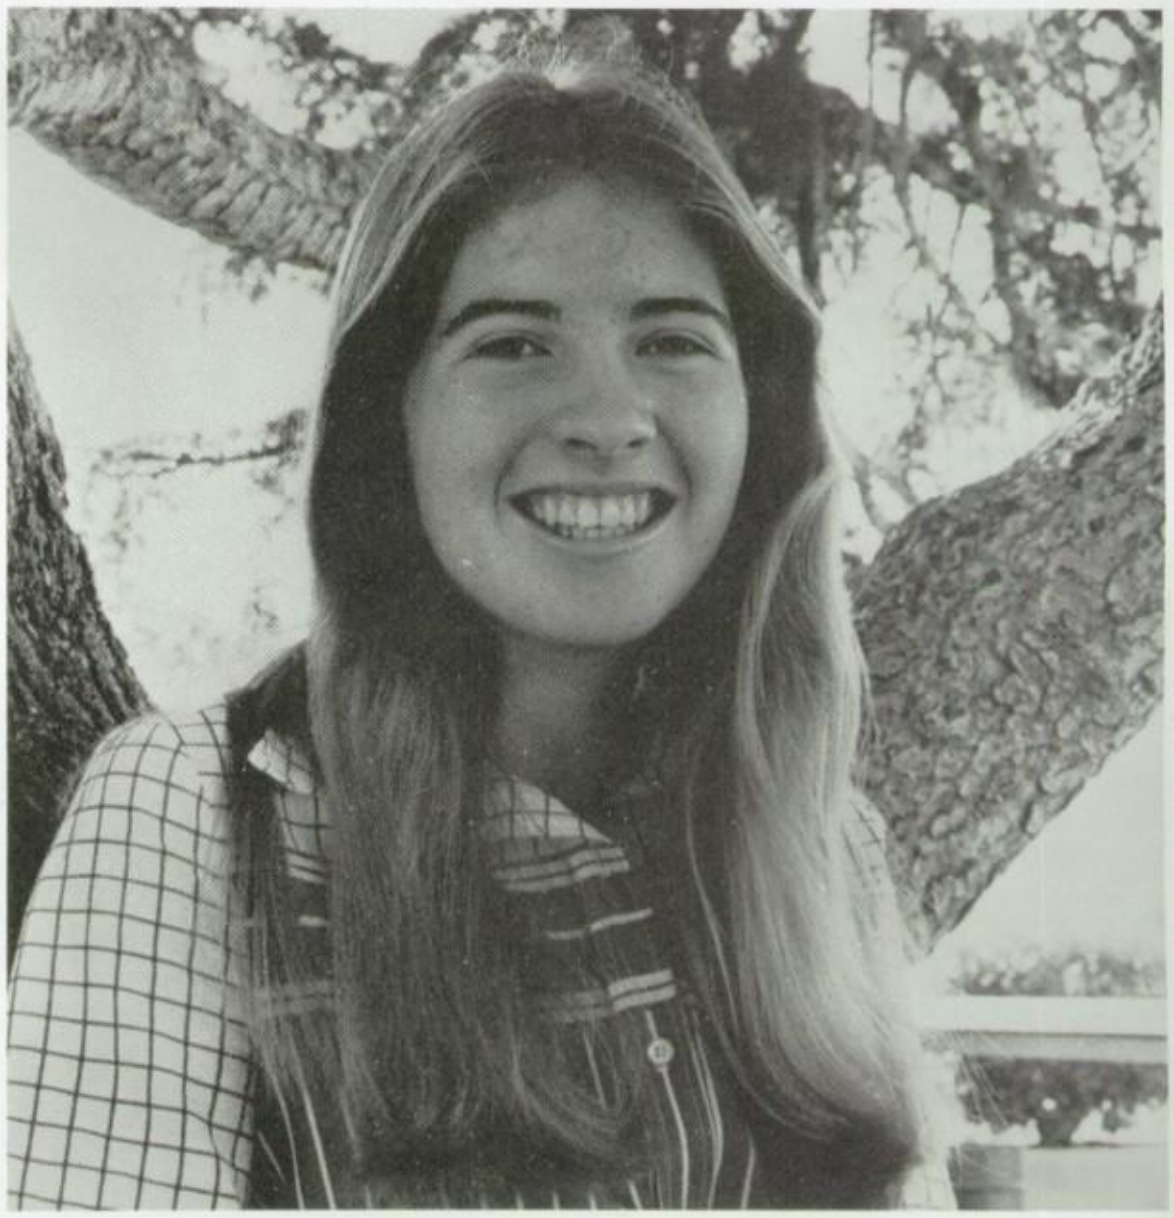
Bill Obana



SENIOR CLASS

The Class of '78 had a successful year. We reinstated Grad night, planned Senior ball and sponsored various fund raisers, including the well attended Freshmen welcome dance. I want to thank everyone who helped out during the year, you were all fantastic!

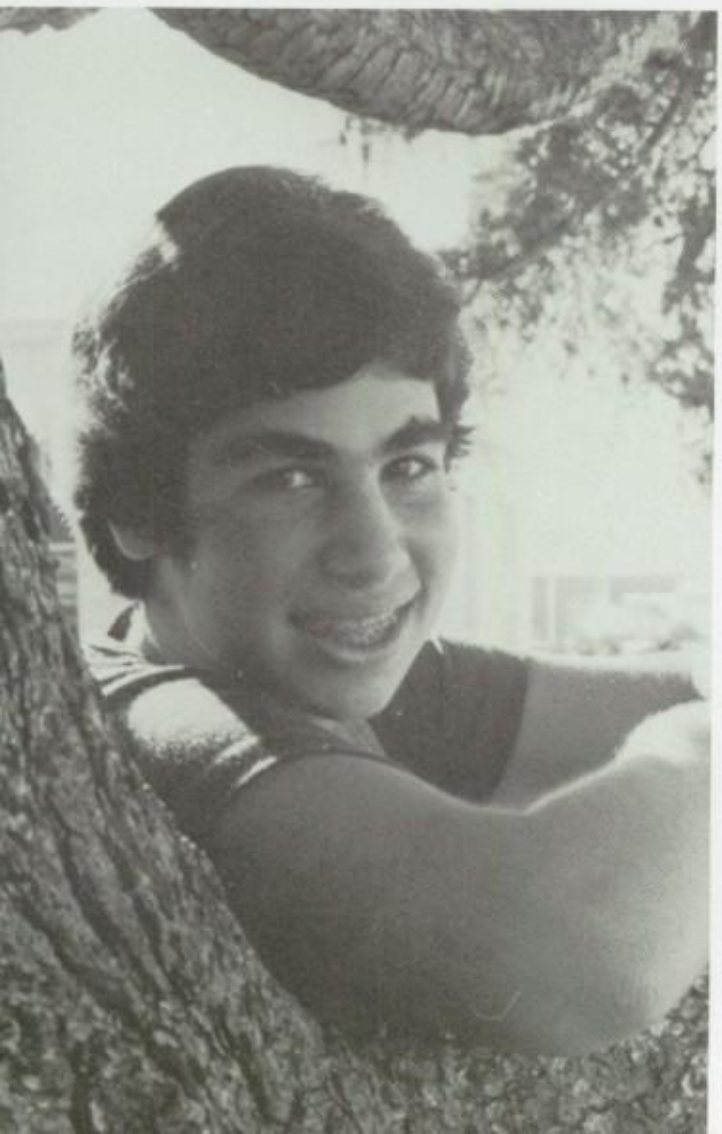
Cristi McCabe



SOPHOMORE CLASS

"Members of the sophomore class worked hard to raise money this year. Everyone involved was helpful, so we were able to have several fundraisers. The Class of '80 has a lot of spirit and we realize that all the hard work gives us more to look forward to during our Senior year."

Amy Ellison



FRESHMAN CLASS

"This year has been the best learning experience of my life: Long hours, no pay, hard work, and too many meetings — I love it!"

KSRH

KSRH is our student sponsored and operated radio station. The station can presently be heard by Biacom cable subscribers all over southern Marin County on 107.3 FM. This coming September we plan to also broadcast on 88.1 FM with our own license. Many exciting plans are being made for the use of this new addition to S.R.H.S. Who knows . . . maybe the next Howard Cosell might be a member of the class of 1981.

David Blume: Living in San Rafael has brought me many new experiences in my life. I've met a lot of very nice people and have enjoyed going to San Rafael. I plan to start my college education here, in California.

Fuat Agacik: This year in the U.S.. was one of the most exciting and enjoyable experiences in my life. If I had the chance to come to the U.S. again as an exchange student, I would certainly go.
When I go back home, I'll leave remembering unforgettable experiences which never would have been possible without my host family and a friend whom I will always think of with pleasure.

Sven Anne Buggeland: I've had this strange feeling for a long time. I really enjoy going to S.R.H.S. except on Fridays, of course. One reason is that my courses are very interesting. My teachers are very excellent, too. But there's something more, there's my friends and fellow students. All of you have helped me to get the most out of my year here and have improved an already fantactic experience.

Jun Nishida: When I came to this school, I was surprised at the relationship between teachers and students. Both are very friendly. In my country, most students are scared of their teachers. I felt that the teacher-student relationship was very good. By the way I was surprised to see student smokers. I feel that the Americans have a great deal of freedom, but I'm not sure it is for the better.

For adults only

(Don't Read This Unless You're 18 or Nearly 18.)

"BB guns" have been so identified with American youth that it may surprise you to learn that there is a special world of airguns specifically **not** designed for youngsters.

If you are a student of Science, Engineering, Automobile Mechanics, etc., you have learned to appreciate fine design and mechanical action. You can combine that appreciation with a lot of fun by discovering the incredible precision air rifles and pistols made in Europe for adults. Right here in Marin is the world's largest selection of these airguns and their supplies. Here are airguns designed with beautiful mechanism, nearly silent firing, truly pin-head accuracy, high velocity, and lifetime durability rather than toy-level, "shoot-em-up" youngster appeal. And **no pumping! no CO2! no valves!** Priced from $39.95 to over $400.00.

The **Whole Earth Catalog** people were so fascinated with our unusual products that they wrote a fine review of them and our big Airgun Sourcebook/Catalog in their Epilog issue. Give us a call and come on in to get a copy of that now-famous Beeman's Airgun Sourcebook/Catalog! And bring your old clunker airgun, even if it doesn't work, for a generous **trade-in.**

While we specialize in the amazing European airguns, we also have the very best selection and prices on Sheridan airguns and we do **precision repairs** on Sheridan, Benjamin, and Crosman airguns.

P.S.: Beeman's also has the world's largest selection of pellets from the most economical to the world's finest, including the famous pointed Silver Jets. More performance for any airgun!

Gun and pellet sales absolutely limited to 18 and over.

The end

Angie -

Well we're finally Getting Out of School, that doesn't Mean running around in the Cold city Looking in Hotels with all this extra time we have now. (that sounds weird) anyway, it's been an experience Knowing you. It's Going to be great Going to the future Concerts if we Can Get a car, If not (the car) we'll have to marry - way's. I know we've been through alot of shit, fights & Other Stubb that was dumb- so lets cut it out O.K. Have a Cool Summer Cause - (the Wheel in the Sky keeps on turnin-)

Love Dawn Clayton

P.S.- I just remembered, what do you think ever happened to "Kerry Kollmar" that little, well - what can I say, Nothing Im using up all of the space on this page, oh, I hope you Get to see your babe Sometime and that little "BABY" (Do ya know who Im talking about)? You should he's the spoiled BABY- That little twerp!

P.P.S. Did you notice how I spelt your name?
